**The Timberman** ,1928      **Georgia** International Monetary Fund,2009-04-20 This 2009 Article IV Consultation highlights that the fiscal deficit in Georgia widened markedly in 2008 The composition of spending improved from high defense and election outlays in the first half of the year to infrastructure and social spending in the second half Executive Directors have observed that the Georgian economy has been seriously affected by the August 2008 armed conflict and now by the global downturn Directors have supported the authorities plans to contain the economic slowdown through a donor financed fiscal stimulus and a reorientation of expenditures      United States Census of Agriculture, 1959 United States. Rodrigue,2001-05-01 In Reconstruction in the Cane Fields John C Rodrigue examines emancipation and the difficult transition from slavery to free labor in one enclave of the South the cane sugar region of southern Louisiana In contrast to the various forms of sharecropping and tenancy that replaced slavery in the cotton South wage labor dominated the sugar industry Rodrigue demonstrates that the special geographical and environmental requirements of sugar production in Louisiana shaped the new labor arrangements Ultimately he argues the particular demands of Louisiana sugar production accorded freedmen formidable bargaining power in the contest with planters over free labor Rodrigue addresses many issues pivotal to all post emancipation societies How would labor be reorganized following slavery s demise Who would wield decision making power on the plantation How were former slaves to secure the fruits of their own labor He finds that while freedmen s working and living conditions in the postbellum sugar industry resembled the prewar status quo they did not reflect a continuation of the powerlessness of slavery Instead freedmen converted their skills and knowledge of sugar production their awareness of how easily they could disrupt the sugar plantation routine and their political empowerment during Radical Reconstruction into leverage that they used in disputes with planters over wages hours and labor conditions Thus sugar planters far from being omnipotent overlords who dictated terms to workers were forced to adjust to an emerging labor market as well as to black political power The labor arrangements particular to postbellum sugar plantations not only propelled the freedmen s political mobilization during Radical Reconstruction Rodrigue shows but also helped to sustain black political power at least for a few years beyond Reconstruction s demise in 1877 By showing that freedmen under the proper circumstances were willing to consent to wage labor and to work routines that strongly resembled those of slavery Reconstruction in the Cane Fields offers a profound interpretation of how former slaves defined freedom in slavery s
