Transforming Public Education Stacey Childress, 2010 For nearly two decades education entrepreneurs have been working to transform the K 12 public education system in the United States The nineteen cases in this book profile entrepreneurs who are pursuing opportunities to create pattern breaking social change in our public schools in particular by creating high quality educational opportunities for low income and minority students who are dramatically underserved by the current public education system Based on a popular course developed and taught at the Harvard Business School this casebook is organized into four modules Understanding the Context of Urban Schooling in the United States Tackling the People Problem Focusing on Performance Launching and Growing New Schools Students are invited to explore four overarching questions Why are there opportunities for entrepreneurs in a sector that is funded with public dollars and delivered by public agencies Why is entrepreneurial activity aggregating around certain opportunities What are the possibilities and constraints faced by entrepreneurs in each opportunity area How can we evaluate the impact of these entrepreneurs efforts This timely volume provides invaluable insight into the opportunities challenges and lessons of entrepreneurial reform Stacey Childress offers engrossing up close looks at acclaimed entrepreneurs like KIPP Teach For America and Wireless Generation as well as at cutting edge districts This is essential reading for actual and aspiring entrepreneurs and those who work with them Frederick M Hess director of education policy studies American Enterprise Institute and author of Education Unbound For the past decade Stacey Childress has taught the quintessential course in education entrepreneurship at Harvard With the release of this incredible case book and the accompanying instructor s guide she is offering an enormous gift to the field These volumes provide a powerful intellectual framework for a series of carefully selected cases that illustrate the key strategic leadership and operating issues challenges and opportunities these important change agents face in trying to transform public education Childress s teaching notes are worth their weight in gold providing a rich and nuanced context for the work scaffolded teaching advice and the insights of a truly gifted instructor on the art of case method questioning and facilitation Kim Smith founder NewSchools Venture Fund A powerful toolkit for understanding social entrepreneurs and the challenges they face Childress has compiled a rich set of case studies and nested them in the context of education today This book should be on the shelf of anyone who wants to understand or participate in these ventures Andrew J Rotherham cofounder Education Sector and author of Eduwonk com This book of cases is the best source on innovation in K 12 education No other source makes it so clear that school improvement comes from hard thinking and open minded problem solving not ideological warfare Paul T Hill John and Marguerite Corbally Professor and director Center on Reinventing Public Education University of Washington Bothell Stacey M Childress is a senior lecturer in the General Management Unit at Harvard Business School and a cofounder of the Public Education Leadership Project at Harvard University

Managing School Districts for High Performance Stacey Childress, 2007 Managing School

Districts for High Performance brings together more than twenty case studies and other readings that offer a powerful and transformative approach to advancing and sustaining the work of school improvement. At the center of this work is the concept of organizational coherence aligning organizational design, human capital management, resource allocation, and accountability and performance improvement systems to support an overarching strategy. This central idea provides a valuable conceptual framework for current and future school leaders. The case studies presented in *Managing School Districts for High Performance* grow out of the Public Education Leadership Project (PELP), a unique partnership between the Harvard Business School, the Harvard Graduate School of Education, and a network of urban school districts. This rich array of cases explores the managerial challenges districts face as they seek to ensure rich learning opportunities and high achievement for all students across a system of schools. This book of insightful case studies fills a void long felt by educational administrators in search of practical, real-world training tools. It will serve as a catalyst for the tough conversations district leaders need to have about achieving high-quality outcomes for all students. The Broad Center for the Management of School Systems has used many of these cases with great success, and we are excited that they are now compiled into a single collection. Dan Katzir, Managing Director, The Broad Foundation. This volume is not a treatise about how schools and districts should work. Rather, it provides a deep immersion in the real dilemmas involved in advancing school district reform. Anyone who works through these cases cannot help but come away with a more informed vision for change, a more reflective orientation about the interrelationships among the multiple tasks involved, and a more prudent grasp of what it takes to educate all children to high academic standards. The course of study presented by *Managing School Districts for High Performance* should be required professional education for anyone charged with advancing a coherent agenda of school improvement in our diverse, demanding, and rapidly changing society. Anthony S. Bryk, Spencer Professor of Organizational Studies, Stanford University. This set of case studies offers practitioners, policymakers, and scholars the opportunity to learn from the collective wisdom and real-life experiences of educational leaders involved in systemic transformation. Implementing coherent reform strategies designed to improve and sustain student performance often takes place in a vacuum. As a former urban superintendent, I believe that these selected educational case studies provide a compelling forum for shared experiential teaching and learning. Arlene Ackerman, Christian A. Johnson, Professor of Outstanding Educational Practice, Teachers College, Columbia University. This collaboration between the Harvard Business School and the Harvard Graduate School of Education provides a set of analytical tools to address the most complex and challenging issues facing urban public schools. The contemporary case studies document actual choices and constraints and point to patterns and similarities across organizations, from urban schools to corporate environments. Carol Johnson, Superintendent, Boston Public Schools. Stacy Childress is a lecturer at Harvard Business School. Richard F. Elmore is the Gregory R. Anrig Professor of Educational Leadership at the Harvard Graduate School of Education. Allen S. Grossman is the MBA Class of 1957 Professor of

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals.
