Imperial Sceptics provides a highly original analysis of the emergence of opposition to the British Empire from 1850 1920
Departing from existing accounts which have focused upon the Boer War and the writings of John Hobson Gregory Claeys
proposes a new chronology for the contours of resistance to imperial expansion Claeys locates the impetus for such
opposition in the late 1850s with the British followers of Auguste Comte Tracing critical strands of anti imperial thought
through to the First World War Claeys then scrutinises the full spectrum of socialist writings from the early 1880s onwards
revealing a fundamental division over whether a new conception of socialist imperialism could appeal to the electorate and
satisfy economic demands Based upon extensive archival research and utilising rare printed sources Imperial Sceptics will
prove a major contribution to our understanding of nineteenth century political thought shedding new light on theories of
