Mass Murder Jack Levin, James Fox, 1991 **Criminal Violence** Marvin E. Wolfgang, Neil Alan Weiner, 1986 four chapters alone are worth the price of the volume and are recommended to serious researchers in the area of violent crime and delinquency Contemporary Psychology Vol 28 No 6 1983 The collection provides a highly useful anthology of current research into the parameters of criminally violent behavior including a wide selection of viewpoints The Police Chief January 1984 **Shades of Freedom** A. Leon Higginbotham Jr., 1998-06-11 Few individuals have had as great an impact on the law both its practice and its history as A Leon Higginbotham Jr A winner of the Presidential Medal of Freedom the nation's highest civilian honor he has distinguished himself over the decades both as a professor at Yale the University of Pennsylvania and Harvard and as a judge on the United States Court of Appeals But Judge Higginbotham is perhaps best known as an authority on racism in America not the least important achievement of his long career has been In the Matter of Color the first volume in a monumental history of race and the American legal process Published in 1978 this brilliant book has been hailed as the definitive account of racism slavery and the law in colonial America Now after twenty years comes the

long awaited sequel *In Shades of Freedom* Higginbotham provides a magisterial account of the interaction between the law and racial oppression in America from colonial times to the present demonstrating how the one agent that should have guaranteed equal treatment before the law the judicial system instead played a dominant role in enforcing the inferior position of blacks The issue of racial inferiority is central to this volume as Higginbotham documents how early white perceptions of black inferiority slowly became codified into law Perhaps the most powerful and insightful writing centers on a pair of famous Supreme Court cases which Higginbotham uses to portray race relations at two vital moments in our history The *Dred Scott* decision of 1857 declared that a slave who had escaped to free territory must be returned to his slave owner Chief Justice Roger Taney in his notorious opinion for the majority stated that blacks were so inferior that they had no right which the white man was bound to respect For Higginbotham Taney's decision reflects the extreme state that race relations had reached just before the Civil War And after the War and Reconstruction Higginbotham reveals the Courts showed a pervasive reluctance if not hostility toward the goal of full and equal justice for African Americans and this was particularly true of the Supreme Court And in the *Plessy v Ferguson* decision which Higginbotham terms one of the most catastrophic racial decisions ever rendered the Court held that full equality in schooling or housing for instance was unnecessary as long as there were separate but equal facilities Higginbotham also documents the eloquent voices that opposed the openly racist workings of the judicial system from Reconstruction Congressman John R Lynch to Supreme Court Justice John Marshall Harlan to W E B Du Bois and he shows that ironically it was the conservative Supreme Court of the 1930s that began the attack on school segregation and overturned the convictions of African Americans in the famous *Scottsboro* case But today racial bias still dominates the nation Higginbotham concludes as he shows how in six recent court cases the public perception of black inferiority continues to persist In *Shades of Freedom* a noted scholar and celebrated jurist offers a work of magnificent scope insight and passion Ranging from the earliest colonial times to the present it is a superb work of history and a mirror to the American soul
