Meeting,1858 Research Paper SO ,1977 **Social Consequences of Internet Use** James E. Katz,Ronald E. Rice,2002-08-30 A study of the impact of Internet use on American society based on a series of nationally representative surveys conducted from 1995 to 2000 Drawing on nationally representative telephone surveys conducted from 1995 to 2000 James Katz and Ronald Rice offer a rich and nuanced picture of Internet use in America Using quantitative data as well as case studies of Web sites they explore the impact of the Internet on society from three perspectives access to Internet technology the digital divide involvement with groups and communities through the Internet social capital and use of the Internet for social interaction and expression identity To provide a more comprehensive account of Internet use the authors draw comparisons across media and include Internet nonusers and former users in their research The authors call their research the Syntopia Project to convey the Internet s role as one among a host of communication technologies as well as the synergy between people s online activities and their real world lives Their major finding is that Americans use the Internet as an extension and enhancement of their daily routines Contrary to media sensationalism the Internet is neither a utopia liberating people to form a global egalitarian community nor a dystopia producing armies of disembodied lonely individuals Like any form of communication it is as helpful or harmful as those who use it *Minerals and Metals* ,1963
