Nag,2018-11-13 This book investigates the real process of unleashing the power of Information and Communications
Technology ICT through Open Innovation and strategic choices It covers the most important aspects of ICT in a nutshell and
details the road to the future through business innovation ICT of which telecom and IT constitute the core is currently
permeating and transforming every sphere of life ranging from commerce manufacturing education and healthcare to
agriculture banking governance media and entertainment Today telecommunication and ICT in general are essential to a
country s economic development and competitiveness as recognized both by the World Bank and the Asian Development
Bank Due to the powerful disruptive and rapid forces unleashed by ICT tsunami organisations not only struggle to harness
the potential of ICT but can also be overwhelmed by the changes complexity competition and regulatory environment it
brings up This book provides a clue to organisations on how to sustain and succeed by leveraging ICT in absence of extensive
in house expertise across the breadth and depth of these areas The driving theme of the book is about opening up
organizational and business models by presenting an integrated roadmap to a future with ICT by co opting cooperating and
competing with other organisations Constructing the right strategy and building the necessary social capital for open
innovation through collaboration with partners government academia and users Quadruple Helix Model are essential steps in
