Beresford,2018-10-30 Despite a propensity toward fierce criticism of his generals with great regard the Duke of Wellington referred to William Carr Beresford as the ablest man I have yet seen in the army Marshal William Carr Beresford is the story of a celebrated and distinguished Irishman honoured and decorated by the governments of Great Britain Portugal and Spain who served as Commander in Chief of the Portuguese army for eleven years The book follows the trajectory of Beresford s extensive military career Born the illegitimate son of the 1st Marquis of Waterford Beresford joined the British army in 1785 serving in the Mediterranean Egypt South Africa and South America before further distinguishing himself and meeting Wellington s redoubtable esteem as Marshal of the Portuguese forces during the Peninsular War Sent to Portugal to rebuild its army in the fight against Napoleon Beresford was so successful that Wellington integrated the Portuguese and British armed forces in that struggle Beresford is revealed as a trusted friend and confidant of Wellington a relationship that was to endure for the rest of their lives Their ability to work together led to Beresford s appointment as Master General of Ordinance in Wellington s government of 1828 This is the remarkable story of one of the most celebrated and decorated Irish

soldiers ever to fight in overseas service and who was considered in all opinion as the Duke of Wellington's strong right arm. Despite being fiercely critical of his generals, Wellington described Beresford as the ablest man in the army and relied heavily on his Irish-born commander. Marshal Sir William Carr Beresford was the illegitimate son of the 1st Marquis of Waterford and rose to the rank of General in the British army and Marshal to the Portuguese forces during the Peninsular War. Sent to Portugal to rebuild its demoralised forces against Napoleon, Beresford was so successful that Wellington combined the Portuguese and British regiments and positioned Beresford as commander in chief. Their friendship and trust are revealed in their correspondence which shows them not only writing to each other almost daily but meeting regularly to discuss strategy or to socialise. It was an amicable and supportive relationship that continued for the rest of their lives, leading to Beresford's appointment as Master General of Ordnance in Wellington's first government in 1828.

*The Ojibwa of Western Canada 1780-1870* Laura Peers, 2009-09-08. Among the most dynamic Aboriginal peoples in western Canada today are the Ojibwa who have played an especially vital role in the development of an Aboriginal political voice at both levels of government. Yet they are relative newcomers to the region occupying the parkland and prairies only since the end of the 18th century. This work traces the origins of the western Ojibwa, their adaptations to the West and the ways in which they have coped with the many challenges they faced in the first century of their history in that region between 1780 and 1870. The western Ojibwa are descendants of Ojibwa who migrated from around the Great Lakes in the late 18th century. This was an era of dramatic change. Between 1780 and 1870 they survived waves of epidemic disease, the rise and decline of the fur trade, the depletion of game, the founding of non-Native settlement, the loss of tribal lands and the government's assertion of political control over them. As a people who emerged, adapted and survived in a climate of change, the western Ojibwa demonstrate both the effects of historic forces that acted upon Native peoples and the spirit determination and adaptive strategies that the Native people have used to cope with those forces. This study examines the emergence of the western Ojibwa within this context, seeing both the cultural changes that they chose to make and the continuity within their culture as responses to historical pressures. *The Ojibwa of Western Canada* differs from earlier works by focussing closely on the details of western Ojibwa history in the crucial century of their emergence. It is based on documents to which pioneering

scholars did not have access including fur traders and missionaries journals letters and reminiscences Ethnographic and archaeological data and the evidence of material culture and photographic and art images are also examined in this well researched and clearly written history
