Charles Jedrej,Mark Nuttall,2013-09-13 First Published in 1996 Feelings about the repopulation of remote rural areas are
nowadays expressed in rather alarming terms so that in the word of a Skye land owner the filling of empty glens with people
regardless of origin is dangerous because it can destroy the ancient culture which is so precious Yet it is remarkable that the
depopulation which characterized the previous centuries was greeted with virtually the same reaction The repopulation of
rural Scotland which since the beginning of the century has been wished for as the solution to the great problem of rural
depopulation has provoked an ambiguous response This book describes the local experience of recent population changes
and addresses the problem of repopulation It analyses the paradoxes ironies and ambiguities that form a complex structure
of feelings much of which is only partially evident at any one time Report of the Federal Security Agency United States.
Office of Education,1917 **Annual Report** New Jersey. Board of Agriculture,1890 **The Art of Poetry** Shira
Wolosky,2008-09-19 In The Art of Poetry Shira Wolosky provides a dazzling introduction to an art whose emphasis on verbal
music wordplay and dodging the merely literal makes it at once the most beguiling and most challenging of literary forms A
uniquely comprehensive step by step introduction to poetic form The Art of Poetry moves progressively from smaller units
such as the word line and image to larger features such as verse forms and voice In fourteen engaging beautifully written
chapters Wolosky explores in depth how poetry does what it does while offering brilliant readings of some of the finest lyric
poetry in the English and American traditions Both readers new to poetry and poetry veterans will be moved and enlightened
as Wolosky interprets work by William Shakespeare John Donne William Blake William Wordsworth Emily Dickinson Robert
Frost Sylvia Plath and others The book includes a superb two chapter discussion of the sonnet s form and history and
represents the first poetry guide to introduce gender as a basic element of analysis In contrast to many existing guides which
focus on selected formal aspects like metrics or present definitions and examples in a handbook format The Art of Poetry
covers the full landscape of poetry s subtle art while showing readers how to comprehend a poetic text in all its dimensions
Other special features include Wolosky s consideration of historical background for the developments she discusses and the
way her book is designed to acquaint or reacquaint readers with the core of the lyric tradition in English Lively accessible
and original The Art of Poetry will be a rich source of inspiration for students general readers and those who teach poetry

The Audiencia in the Spanish Colonies as Illustrated by the Audiencia of Malina (1583-1800) Charles Henry Cunningham,1919 *A Scientist's Voice in American Culture* Albert E. Moyer,1992-09-23 In late nineteenth century America Simon Newcomb was the nation s most celebrated scientist and irascibly doggedly tirelessly he made the most of it Officially a mathematical astronomer heading a government agency Newcomb spent as much of his life out of the observatory as in it acting as a spokesman for the nascent but restive scientific community of his time Newcomb saw the scientific method as a potential guide for all disciplines and a basis for all practical action and argued passionately that it was of as much use in the halls of Congress as in the laboratory In so doing he not only sparked popular support for American science but also confronted a wide spectrum of social cultural and intellectual issues This first full length study of Newcomb traces the development of his faith in science and ranges over topics of great public debate in the Gilded Age from the reform of economic theory to the recasting of the debate between science and religion Moyer s portrait of a restless eager mind also illuminates the bustle of late nineteenth century America **Transactions of the Royal Society of South Australia** ,1888
