When Representative Preston Brooks of South Carolina savagely caned Senator Charles Sumner Massachusetts on the floor  
of the U S Senate on May 21 1856 southerners viewed the attack as a triumphant affirmation of southern chivalry  
northerners as a confirmation of southern barbarity Public opinion was similarly divided nearly three and a half years later  
after abolitionist John Brown s raid on the Federal arsenal at Harper s Ferry Virginia with northerners crowning John Brown  
as a martyr to the cause of freedom as southerners excoriated him as a consciousness fanatic These events opened American  
minds to the possibility that North and South might be incompatible societies but some of Dixie s defenders were willing to  
go one step further to propose that northerners and southerners represented not just a divided people but two scientifically  
distinct races In *Normans and Saxons* Ritchie Watson Jr explores the complex racial mythology created by the upper classes  
of the antebellum South in the wake of these divisive events to justify secession and eventually the Civil War This mythology  
cast southerners as descendants of the Normans of eleventh century England and thus also of the Cavaliers of the  
seventeenth century some of whom had come to the New World and populated the southern colonies These Normans were  
opposed in mythic terms by Saxons Englishmen of German descent some of whose descendants made up the Puritans who  
settled New England and later fanned out to populate the rest of the North The myth drew on nineteenth century science and  
other sources to portray these as two separate warring races the aristocratic and dashing Normans versus the common and  
venal Saxons According to Watson southern polemical writers employed this racial mythology as a justification of slavery

countering the northern argument that the South's peculiar institution had combined with its Norman racial composition to produce an arrogant and brutal land of oligarchs with a second rate culture Watson finds evidence for this argument in both prose and poetry from the literary influence of Sir Walter Scott De Bow's Review and other antebellum southern magazines to fiction by George Tucker John Pendleton Kennedy and William Alexander Caruthers and northern and southern poetry during the Civil War especially in the works of Walt Whitman Watson also traces the continuing impact of the Norman versus Saxon myth in Lost Cause thought and how the myth has affected ideas about southern sectionalism of today Normans and Saxons provides a thorough analysis of the ways in which myth ultimately helped to convince Americans that regional differences over the issue of slavery were manifestations of deeper and more profound differences in racial temperament differences that made civil war inevitable
