Reproductive Tract Infections Adrienne Germain,King K. Holmes,Peter Piot,Judith Wasserheit,2013-06-29 Reproductive tract infections RTIs have become a silent epidemic that is devastating women s lives Each year thousands of women die needlessly from the consequences of these infections including cervical cancer ectopic pregnancy acute and chronic infections of the uterus and the fallopian tubes and puerperal infections For many women this happens because they receive

medical attention too late if at all The terrible irony of this tragedy is that early diagnosis of and treatment for many RTIs do not require high technology health care For the hundreds of millions of women with chronic RTIs acquired from their sexual partners life can become a living hell Infection is a major cause of infertility and it leads to scorn and rejection in many countries These women may experience constant pain have festering lesions of the genital tract be at enhanced risk of second ary diseases and endure social ostracism The problems associated with RT s have grown even greater in the past decade with the emergence of human immunodeficiency virus HIV and AIDS Preexisting sexually transmitted disease particularly when associated with genital tract ulcers raises women s vulnerability to the transmission of HIV 3 5 fold
