Bureau of the Census,1953 *Official Gazette* Philippines,1967 **A Different Society Altogether** Roar Høstaker,2014-06-26 What is a society Within sociology and political science theoretical debates are typically concerned with how societies can be studied in the best possible way Despite the importance of these epistemological questions it is timely to ask what kinds of entities compose society what the relationship between them might be and whether humans may be said to live in societies at all How do we conceive of a sociological theory that takes these fundamental and more ontological problems seriously This book suggests some solutions based on the anthropology of science of Bruno Latour and the philosophy of Gilles Deleuze and Felix Guattari The central argument is that these thinkers provide perspectives which can both reinvigorate the theoretical debates within sociology and provide better analytical tools for social research Although sociology does not adhere to the letter of Durkheim s dictum that society should be studied as an object or of Weber s theory that only meaningful relations are of interest it still owes these two forefathers a great deal Their intellectual influence has made it notoriously difficult to reconceptualize social thought from within the discipline itself As a result sociology has become entrenched in an unwarranted anthropocentrism an inability to integrate language and technical objects as part of its analytical foundation and a marked subordination to state thinking By introducing concepts like the collective of humans and non humans event plane and assemblage this book indicates new avenues for empirical research which will make a break away from the established patterns possible Unfortunately many previous applications of Deleuze and Guattari s thinking within the social sciences leave much to be desired A recurrent phenomenon has been the rather imprecise treatment of their concepts Furthermore analyses of their concepts are not much more than meta commentaries on meta commentaries To redress these shortcomings this book presents a more thorough reception of this body of philosophy within the framework of sociological theory *Journal of the Franklin Institute* Franklin Institute (Philadelphia, Pa.),1921 Vols 1 69 include more or less complete patent reports of the U S Patent Office for years 1825 59 Departments of Labor, and Health, Education, and Welfare Appropriations for Fiscal Year 1971 United States. The CSS Virginia John V Quarstein, 2021-03-08 This history of the Confederate Navy s ironclad warship will likely be the definitive single title on the CSS Virginia Civil War News When the CSS Virginia formerly the USS Merrimack slowly steamed down the Elizabeth River toward Hampton Roads on March 8 1862 the tide of naval warfare turned from wooden sailing ships to armored steam powered vessels Little did the ironclad s crew realize that their makeshift warship would achieve the greatest Confederate naval victory The trip was thought by most of the crew to be a trial cruise Instead the Virginia s aggressive commander Franklin Buchanan transformed the voyage into a test by fire that forever proved the supreme power of iron over wood The Virginia s ability to beat the odds to become the first ironclad to enter Hampton Roads stands as a testament to her designers builders officers and crew Virtually everything about the Virginia s design was an improvisation or an adaptation characteristic of the Confederacy s efforts to wage a modern war with limited industrial resources Noted historian John V Quarstein recounts the compelling story of this ironclad
