**Perfecting Grace** Mark H. Mann,2006-11-15 Mark Mann seeks to renew discussion of the doctrine of holiness in Christian theology by using the human sciences as a tool for theological reconstruction He identifies the anthropological presuppositions of the holiness tradition and explores the ways that those presuppositions have led to particular assertions regarding the nature of Christian holiness as that doctrine is affirmed by the holiness tradition He asks to what extent holiness is possible in this life How is holiness obtained and to what extent can people gain knowledge of having achieved holiness Mann uses the resources of the neurosciences the sociology of knowledge and psychology to help answer these questions and to provide constructive theological analysis of these questions      Hearings United States. Committee on Appropriations,1969      The Character of Consent Meg Leta Jones,2024-06-18 The rich untold origin story of the ubiquitous web cookie what s wrong with it why it s being retired and how we can do better Consent pop ups continually ask us to download cookies to our computers but is this all too familiar form of privacy protection effective No Meg Leta Jones explains in *The Character of Consent* rather than promote functionality privacy and decentralization cookie technology has instead made the internet invasive limited and clunky Good thing then that the cookie is set for retirement in 2024 In this eye opening book Jones tells the little known story of this broken consent arrangement tracing it back to the major transnational conflicts around digital consent over the last twenty five years What she finds is that the policy controversy is not in fact an information crisis it s an identity crisis Instead of asking how people consent Jones asks who exactly is consenting and to what Packed into those cookie pop ups she explains are three distinct areas of law with three different characters who can consent Within mainly European data protection law the data subject consents

Within communication privacy law the user consents And within consumer protection law the privacy consumer consents These areas of law have very different histories motivations institutional structures expertise and strategies so consent and the characters who can consent plays a unique role in those areas of law The Character of Consent gives each computer character its due taking us back to their origin stories within the legal history of computing By doing so Jones provides alternative ways of understanding the core issues within the consent dilemma More importantly she offers bold new approaches to creating and adopting better tech policies in the future The Economics of Clean Air United States.
