Places of Memory in Modern China Marc Andre Matten, 2011-12-09 In the last decades the scholarship on issues of national and cultural identity of China has been constantly on the rise This edited volume aims at addressing these issues by applying Pierre Nora s approach of places of memory lieux de m moire to the Chinese context The volume assembles a number of articles that focus on the most significant places of memory in modern and contemporary China ranging from Qin Shihuang s Terracotta Warriors to the Chiang Kai shek Memorial Hall The genesis and nature of these places are discussed in detail by combining approaches of both cultural and historical sciences In addition issues of cultural memory and politics are addressed in order to question the ideological construction of these places Travel, Discovery, Transformation Gabriel R. Ricci, 2017-09-29 This latest volume in the Culture Civilization series gathers interdisciplinary voices to present a collection of essays on travel and travel narratives The essays span a range of topics from iconic ancient travel stories to modern tourism They discuss travel in the ancient world modern heroic travels the literary culture of missionary travel the intersection of fiction and travel narratives modern literary traditions and visions of Greece personal identity and expatriation Essays also address travel memoirs the re imagining of worlds through travel transformed landscapes and animals in travel narratives diplomacy English women travel writers and pilgrimage and health in the medieval world The history of travel writing takes in multiple pursuits exploration and conquest religious pilgrimage and missionary work educational tourism and diplomacy scientific and personal discovery and natural history and oral history As a literary genre it has enhanced a wide range of disciplines including geography ethnography anthropology and linguistics Moreover twenty first century interests in travel and travel writing have produced a global framework that promises to expand travel s theoretical reach into the depths of the Internet thus challenging our conventional concept of what it means to travel The fact that travel and travel writing have a prehistory that is embedded in foundational religious texts and ancient narratives of journey like the Odyssey and the Epic of Gilgamesh makes both travel and travel writing fundamental and essential expressions of humanity Travel encourages writing particularly as epistolary and poetic chronicling This is clearly a history and tradition that began with human communication and which has kept pace with our collective development
