Ancient Narrative Volume 4, **Area Handbook for South Korea** Nena Vreeland, 1975 **Heroic Offerings** Gina Salapata, 2015-02-12 Heroic Offerings sheds light on the study of religion in Sparta one of Greece's most powerful city states and the long term rival of Athens Sparta's history is well known but its archaeology has been much less satisfactorily explored Through the comprehensive study of a distinctive class of terracotta votive offerings from a specific sanctuary Gina Salapata explores both coroplastic art and regional religion By integrating archaeological historical literary and epigraphic sources she provides important insights into the heroic cults of Lakonia and contributes to an understanding of the political and social functions of local ritual practice This volume focuses on a large group of decorated terracotta plaques from the sixth to fourth centuries BCE These molded plaques were discovered with other offerings in a sanctuary deposit excavated near Sparta more than fifty years ago but they have remained unpublished until now They number over 1 500 complete and fragmentary pieces In technique style and iconography they form a homogeneous group unlike any other from mainland Greece The large number of plaques and variety of types reveal a stable and vigorous coroplastic tradition in Lakonia during the late Archaic and Classical period Heroic Offerings will be of interest to students and scholars of Greek history art and archaeology to those interested in ancient religious practice in the Mediterranean and to all inspired by Athens chief political rival Sparta This volume received financial support from the Archaeological Institute of America

Zbig Edward Luce, 2025-05-13 NEW YORK TIMES BESTSELLER An intimate and masterful biography of Zbigniew Brzezinski President Carter's national security advisor and one of America's leading geopolitical thinkers from one of the finest columnists and political writers at work today Zbigniew Brzezinski was a key architect of the Soviet Union's demise which ended the Cold War A child of Warsaw the heart of central Europe's bloodlands Brzezinski turned his fierce resentment at his homeland's razing by Nazi Germany and the Red Army into a lifelong quest for liberty Born the year that Joseph Stalin consolidated power and dying a few months into Donald Trump's first presidency Brzezinski was shaped by and in turn shaped the global power struggles of the twentieth and early twenty first centuries As counsel to US presidents from John F Kennedy to Barack Obama and chief foreign policy figure of

the late 1970s under Jimmy Carter Brzezinski converted his acclaim as a Sovietologist into Washington power With Henry Kissinger his lifelong rival with whom he had a fraught on off relationship he personified the new breed of foreign born scholar who thrived in America s Cold War University and who ousted Washington s gentlemanly class of WASPs who had run US foreign policy for so long Brzezinski s impact aided by his unusual friendship with the Polish born John Paul II sprang from his knowledge of Moscow s Achilles heel the fact that its nationalities such as the Ukrainians and satellite states including Poland yearned to shake off Moscow s grip Neither a hawk nor a dove Brzezinski was a biting critic of George W Bush s Iraq War and an early endorser of Obama Because he went against the DC grain of joining factions and was on occasion willing to drop Democrats for Republicans Brzezinski is something of history s orphan His historic role has been greatly underweighted In the almost cinematic arc of his life can be found the grand narrative of the American century and great power struggle that followed

Destination Dixie Karen L. Cox, 2018-03-15 Once upon a time it was impossible to drive through the South without coming across signs to See Rock City or similar tourist attractions From battlegrounds to birthplaces and sites in between heritage tourism has always been part of how the South attracts visitors and defines itself yet such sites are often understudied in the scholarly literature As the contributors to this volume make clear the narrative of southern history told at these sites is often complicated by race influenced by local politics and shaped by competing memories Included are essays on the meanings of New Orleans cemeteries Stone Mountain Georgia historic Charleston South Carolina Yorktown National Battlefield Selma Alabama as locus of the civil rights movement and the homes of Mark Twain Margaret Mitchell and other notables Destination Dixie reveals that heritage tourism in the South is about more than just marketing destinations and filling hotel rooms it cuts to the heart of how southerners seek to shape their identity and image for a broader touring public now often made up of northerners and southerners alike

Dixon, 1991-07-26 South East Asia has for many centuries occupied a pivotal position in the wider Asian economy linking China and the Far East with India and the Middle East and since the early 1500s the region has also played a major role in the world economy South East Asia in the World economy is a textbook survey of the area's interaction with these wider regional and international structure Professor Chris Dixon demonstrates how this region's role has undergone frequent and profound change as a result of the successive emergency and dominance of mercantile industrial and finance capital He shows how the region has developed as a supplier of luxury product such as spices as a producer of bulk primary products and how since the mid 1960s it has become a major recipient of investment and a favoured location for European and American markets The author examines how these phases in the evolution of the international economy have been reflected in the relations of evolution of the production and in the spatial pattern of economic activity He also discusses how the progressive integration of South East Asia in the world economy has established the dominance of a small number of core areas and produced a pattern of uneven development throughout the region In a concluding chapter Chris Dixon explores the prospects for South East Asia in the 1990s in the light of the restructuring of the world economy
