19703588:

Dynamics of Gas-Surface Scattering Frank O. Goodman, 2012-12-02 Dynamics of Gas Surface Scattering deals with the dynamics of scattering as inferred from known properties of gases and solids This book discusses measurements of spatial distributions of scattered atomic and molecular streams and of the energy and momentum which gas particles exchange at solid surfaces It also considers two regimes of scattering both of which are associated with a lower range of incident gas energies the thermal and structure scattering regimes Comprised of 10 chapters this book opens with a brief historical overview of the early experiments that investigated the dynamics of scattering of gases by surfaces The discussion then turns to some elements of the kinetic theory of gases intermolecular potentials and interaction regimes and classical mechanical lattice models used in gas surface scattering theory The applications of molecular beams to the study of gas surface scattering phenomena are also described The remaining chapters focus on experiments and theories on scattering of molecular streams by surfaces of solids with emphasis on thermal and structure regimes of inelastic scattering quantum theory of gas surface scattering and quantum mechanical scattering phenomena This text concludes with an analysis of energy exchange processes that may occur when a solid surface is completely immersed in a still gas This monograph will be a valuable resource for students and practitioners of physics chemistry and applied mathematics Food Consumption,

Prices, and Expenditures, 1960-80 Richard Prescott, 1981 Abstract Early statistical data on US food consumption prices and expenditures are revised and updated through 1980 for food statisticians and food program administrators Highlights of the survey results are given in an introductory section these include 1 Food retail prices rose 8 6% in 1980 while consumer food expenditures rose 10 8% 2 The percentage of disposable income spent on food remained unchanged at 16 6% 3 Consumption capita for all foods fell slightly to 1408 lbs 4 Record pork on offset a decreased consumption of beef resulting in an increase in meat capita consumed 5 Whole milk consumption capita declined in 1980 by 6 9 lbs from 1979 6 Fresh fruit and vegetable consumption increased with a decline in the consumption of processed items and the use of corn sweeteners increased almost 5 lbs capita offsetting decreased uses of cane and beet sugar Most of the data are presented in tabular form wz
