The Natural Gas Market Paul W. MacAvoy, 2008-10-01 Over the past six decades federal regulatory agencies have attempted different strategies to regulate the natural gas industry in the United States. All have been unsuccessful, resulting in nationwide gas shortages or massive gas surpluses and costing the nation scores of billions of dollars. In addition, partial deregulation has led the regulatory agency to become more involved in controlling individual transactions among gas producers, distributors, and consumers. In this important book, Paul MacAvoy demonstrates that no affected group has gained from these experiments in public control and that all participants would gain from complete deregulation. Although losses have declined with partial deregulation in recent years, current regulatory practices still limit the growth of supply through the transmission system. MacAvoy's history of the regulation of natural gas is a cautionary tale for other natural resource or network industries that are regulated or are about to be regulated. DIV **Finnegans Wake** John Gordon, 1986-12-01 This is the only full-length study of *Finnegans Wake* to outline and catalog the immense amount of naturalistic detail from which Joyce built the book. The opening chapters describe the physical setting, time, and main characters out of which the book is constructed. John Gordon argues that behind this detail is an essentially autobiographical story involving Joyce's history and, in particular, his feelings toward his father, wife, daughter, and the older brother who died in infancy. Many of the author's findings are new and likely to be controversial because recent criticism has tended to the belief that what he attempts to do cannot be done. This new study of *Finnegans Wake* represents a radically conservative approach and is intended to function both as a guide to the newcomer seeking a chapter-by-chapter plot summary and as an original contribution to Joyce criticism.

The Open Book and the Sealed Book Andrew G. Shead, 2002-04-01 A textual commentary on Jeremiah 32 whose textually oriented methodology helps to uncover far more haplography in the Septuagint Vorlage than hitherto suspected. **Getting Medieval** Carolyn Dinshaw, 1999-09-22 In *Getting Medieval*, Carolyn Dinshaw examines communities dissident and orthodox in late fourteenth and early fifteenth century England to create a new sense of queer history. Reaching beyond both medieval and queer studies, Dinshaw demonstrates in this challenging work how intellectual inquiry into pre-modern societies can contribute invaluable to current issues in cultural studies. In the process, she makes important connections between past and present cultures that until now have not been realized. In her pursuit of historical analyses that embrace the heterogeneity and indeterminacy of sex and sexuality, Dinshaw examines canonical Middle English texts such as the *Canterbury Tales* and *The Book of Margery Kempe*. She examines polemics around the religious dissidents known as the Lollards as well as accounts of prostitutes in London to address questions of how particular sexual practices and identifications were normalized while others were proscribed. By exploring contemporary misappropriations of medieval tropes in texts ranging from Quentin Tarantino's *Pulp Fiction* to recent Congressional debates on U.S. cultural production,

Dinshaw demonstrates how such modern media can serve to reinforce constrictive heteronormative values and deny the multifarious nature of history Finally she works with and against the theories of Michel Foucault Homi K Bhabha Roland Barthes and John Boswell to show how deconstructionist impulses as well as historical perspectives can further an understanding of community in both pre and postmodern societies This long anticipated volume will be indispensable to medieval and queer scholars and will be welcomed by a larger cultural studies audience Individualism in Modern

Thought Lorenzo Infantino,2014-02-04 This book is a comprehensive survey of methodological individualism in social political and economic thought from the Enlightenment to the 20th century Exploring the works of such figures as de Mandeville Smith Marx Spencer Durkheim Simmel Weber Hayek Popper and Parsons this study underlines the contrasts between methodological collectivism and methodological individualism The detailed analysis offered here also reveals the theoretical presuppositions behind the collectivist and individualist traditions and the practical consequences of their applications Infantino concludes in favour of individualism *Historical Dictionaries in their Paratextual Context* Roderick

McConchie,Jukka Tyrkkö,2018-09-24 Both dictionary and paratext research have emerged recently as widely recognised research areas of intrinsic interest This collection represents an attempt to place dictionaries within the paratextual context for the first time This volume covers paratextual concerns including dictionary production and use questions concerning compilers publishers patrons and subscribers and their cultural embedding generally This book raises questions such as who compiled dictionaries and what cultural linguistic and scientific notions drove this process What influence did the professional interests life experience and social connexions of the lexicographer have Who published dictionaries and why and what do the forematter backmatter and supplements tell us Lexicographers edited adapted and improved earlier works leaving copies with marginalia which illuminate working methods Individual copies offer a history of ownership through marginalia signatures dates places and library stamps Further questions concern how dictionaries were sold who patronised them subscribed to them and how they came to various libraries *Translating Kali's Feast* Stephanos

Stephanides,2021-12-28 Translating Kali's Feast is an interdisciplinary study of the Goddess Kali bringing together ethnography and literature within the theoretical framework of translation studies The idea for the book grew out of the experience and fieldwork of the authors who lived with Indo Caribbean devotees of the Hindu Goddess in Guyana Using a variety of discursive forms including oral history and testimony field notes songs stories poems literary essays photographic illustrations and personal and theoretical reflections it explores the cultural aesthetic and spiritual aspects of the Goddess in a diasporic and cross cultural context With reference to critical and cultural theorists including Walter Benjamin and Julia Kristeva the possibilities offered by Kali and other manifestations of the Goddess as the site of translation are discussed in the works of such writers as Wilson Harris V S Naipaul and R K Narayan The book articulates perspectives on the experience of living through displacement and change while probing the processes of translation involved in literature and ethnography

The Yakuza in Popular Media Frank Jacob,2021-10-15 The yakuza Japan s traditional gangsters are famous especially outside Japan where the country s criminal underworld ranks next to sushi or Godzilla when it comes to their respective fame and popularity However in popular media the images of the Japanese gangster vary ranging from chivalrous Robin Hood like characters to violent mobsters without honor and dignity The present volume addresses these differences i e the way yakuza are presented in Japanese and Western popular media Films and autobiographical novels inspired by historical events or personal experiences but also by existent and sometimes even expected stereotypes therefore often already represent a specific image of the Japanese mafia that is more like an artificial construct than actual reality The contributions in this book consequently intend to discuss the images of the Japanese yakuza in popular media to offer a first insight into a very important yet so far understudied topic related to the history of and existent narratives within Japan s popular culture

The Oxford Handbook of British Romantic Prose Robert Morrison,2024-04-18 The Oxford Handbook of British Romantic Prose is a full length essay collection devoted entirely to British Romantic nonfiction prose Organized into eight parts each containing between five and nine chapters arranged alphabetically the Handbook weaves together familiar and unfamiliar texts events and authors and invites readers to draw comparisons reimagine connections and disconnections and confront frequently stark contradictions within British Romantic nonfiction prose but also in its relationship to British Romanticism more generally and to the literary practices and cultural contexts of other periods and countries The Handbook builds on previous scholarship in the field considers emerging trends and evolving methodologies and suggests future areas of study Throughout the emphasis is on lucid expression rather than gnomic declaration and on chapters that offer not a dutiful survey but evaluative assessments that keep an eye on the bigger picture yet also dwell meaningfully on specific paradoxes and the most telling examples Taken as a whole the volume demonstrates the energy originality and diversity at the crux of British Romantic nonfiction prose It vigorously challenges the traditional construction of the British Romantic movement as focused too exclusively on the accomplishments of its poets and it reveals the many ways in which scholars of the period are steadily broadening out and opening up delineations of British Romanticism in order to encompass and thoroughly evaluate the achievements of its nonfiction prose writers

Stateliest Measures A. A. Markley,2004-01-01 The great nineteenth century English poet Alfred Lord Tennyson received an unusually thorough education in the classical languages and he remained an active classical scholar throughout his lifetime His intimate knowledge of both Greek and Latin literature left an indelible stamp on his poetry both in terms of the sound and rhythm of his verses and in the themes that inspired him Stateliest Measures the first full length study of Tennyson s thematic and metrical uses of classical material examines the profoundly important role that his classical background played

as he fashioned himself into a poet in the 1820s and 30s and as he defined himself as poet laureate as of 1850 A A Markley examines Tennyson's objectives in developing the classical dramatic monologue which together with In Memoriam and his experiments with classical meters indicate the degree to which he patterned himself after the Roman poet Virgil in attempting to provide modern Britain with a literature worthy of a new and rapidly expanding world empire Stateliest Measures demonstrates that Tennyson's engagement with the long running and complex nineteenth century debates concerning Hellenism Imperialism and modern British culture was much more profound than his critics have recognized
