*New Tools for Environmental Protection* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on the Human Dimensions of Global Change, 2002-06-13 Many people believe that environmental regulation has passed a point of diminishing returns the quick fixes have been achieved and the main sources of pollution are shifting from large point sources to more diffuse sources that are more difficult and expensive to regulate The political climate has also changed in the United States since the 1970s in ways that provide impetus to seek alternatives to regulation This book examines the potential of some of these new tools that emphasize education information and voluntary measures Contributors summarize what we know about the effectiveness of these tools both individually and in combination with regulatory and economic policy instruments They also extract practical lessons from this knowledge and consider what is needed to make these tools more effective The book will be of interest to environmental policy practitioners and to researchers and students concerned with applying social and behavioral sciences knowledge to improve environmental quality

Regulatory Competition in the Digital Economy Michael Denga, Lars Hornuf, 2025-02-24 The digital economy is reinvigorating regulatory competition yet little is known about which rules and jurisdictions can effectively bind companies nor what competitive motivations underlie certain rules In addition to purely economic motives legislators are now also driving the pursuit of digital sovereignty and the enforcement of social values in digital spaces It also remains unclear what regulatory weight the self-regulation of private companies has in multi-level governance systems This book examines regulatory competition in the three main pillars of digital markets artificial intelligence data and platforms It brings together legal scholars economists and information systems experts providing relevant examples and structured analysis of the aims and outcomes of regulatory competition in the digital economy A timely exploration of the balancing acts regulators must perform to manage private power in a globalized digital economy Essential for understanding the intersection of law economics and technology in the contemporary digital ecosystem Jens Frankenreiter Associate Professor of Law Washington University The book by Denga and Hornuf provides a comprehensive and timely exploration of the intricate regulatory challenges posed by big data artificial intelligence and platforms in the Digital Single Market It offers critical insights for policymakers scholars and businesses navigating this evolving landscape Philipp Hacker Professor for Law and Ethics of the Digital Society European University Viadrin Artificial Intelligence is fundamentally disrupting how we enable economic growth and how we regulate fair competition Luckily Denga and Hornuf provide a detailed and comprehensive overview of the thorniest and most complex regulatory issues while at the same time

offering thoughtful and feasible solutions Regulatory Competition in the Digital Economy is a treasure trove for anyone interested in market regulation fair competition consumer protection and geopolitical questions Sandra Wachter Professor of Technology and Regulation Oxford Internet Institute

**Game Theory and Society** Weiying Zhang,2017-12-14 The progress of society can only happen through interpersonal cooperation because only cooperation can bring about mutual benefit thus bringing happiness to each person This should be our collective rationality but we often see it conflicts with individual interests which leads to the so called Prisoners Dilemma and does not bring happiness to all From a game theoretical perspective this book addresses the issue of how people can cooperate better

It has two objectives The first is to use common language to systematically introduce the basic methodologies and core conclusions of Game Theory including the Nash equilibrium multiple equilibriums dynamic games etc Mathematics and theoretical models are used to the minimum necessary scope too to make this book get access to ordinary readers with elementary mathematical training The second objective is to utilize these methods and conclusions to analyze various Chinese social issues and institutional arrangements with a focus on the reasons people exhibit non cooperative behaviors as well as the institutions and cultures that promote interpersonal cooperation In addition to economics specialists in sociology law history politics and management will also be attracted by this book for its insightful analysis on the issue of cooperation in these fields Also readers curious about Chinese society will benefit from this book
