Annual Report California. Franchise Tax Board,1973 **Where the Evidence Leads** Robert C. Johansen,2021 By shifting American security policy away from maximizing military power for the United States and toward maximizing human security for all policymakers and citizens can also maximize national security for the United States and sustainable peace for the world Why do war and political violence persist Political realists argue that violent conflict and the struggle for power are inherent in the international system and there is little we can do but manage it However as Robert Johansen argues in this path breaking work there are other ways forward In *Where the Evidence Leads* Johansen develops an empirical realist theory to enable the United States to respond more effectively to rising security threats Together peace research and security studies show that more security benefits are likely to result from maximizing the causes or correlates of peace than from maximizing military power Ironically a global grand strategy for human security with national security folded into it is likely to produce more security for the United States than a national security strategy Peace reigns when states implement peace correlates which range from addressing all nations security fears to making life more predictable through better global governance This approach respectful of forgotten insights from Hans Morgenthau and others revolutionizes thinking about national security policy by bringing it into a human security framework The analysis shows that the anarchic militarized balance of power system can be gradually changed with help from enhanced lawmaking enforcement and governance capacities This thought provoking book builds bridges between past policies many of which have failed and more deft ways of handling new realities that focus on building peace In a world of threats this book opens doors onto a future of sustainable peace security and hope *Annual Report of the Franchise Tax Board for the Year ...* California.
