one that preoccupies the nation's shoppers not its statesmen But as *Pocketbook Politics* dramatically shows the twentieth  
century American polity in fact developed in response to that very consumer concern In this groundbreaking study Meg  
Jacobs demonstrates how pocketbook politics provided the engine for American political conflict throughout the twentieth  
century From Woodrow Wilson to Franklin Roosevelt to Richard Nixon national politics turned on public anger over the high  
cost of living Beginning with the explosion of prices at the turn of the century every strike demonstration and boycott was in  
effect a protest against rising prices and inadequate income On one side a reform coalition of ordinary Americans mass  
retailers and national politicians fought for laws and policies that promoted militant unionism government price controls and  
a Keynesian program of full employment On the other small businessmen fiercely resisted this low price high wage agenda  
that threatened to bankrupt them This book recaptures this dramatic struggle beginning with the immigrant Jewish Irish and  
Italian women who flocked to Edward Filene's famous Boston bargain basement that opened in 1909 and ending with the  
Great Inflation of the 1970s *Pocketbook Politics* offers a new interpretation of state power by integrating popular politics and  
elite policymaking Unlike most social historians who focus exclusively on consumers at the grass roots Jacobs breaks new  
methodological ground by insisting on the centrality of national politics and the state in the nearly century long fight to fulfill
