Phenix Jr.,Cornelia B. Horn,2017-03-21 A significant new study of Rabbula and Christianity in Edessa This volume makes available

for the first time both the Syriac text and an English translation of every available original composition by Rabbula the controversial bishop of Edessa ca 411-435 CE. It includes a new edition of the Life of Rabbula and other biographical traditions about him including his conversion from paganism to Christianity. The texts collected in the volume are a valuable source for studying the reception history of biblical themes. In addition, the corpus offers insights into the beginnings of ecclesiastical legislation in the East, charitable work, pilgrimage, ascetic ideals, and church administration. Horn and Phenix examine Rabbula's contribution to the Christological controversies of the fifth and sixth centuries, including his influence on Cyril of Alexandria in his debate with Theodoret of Cyrrhus and Theodore of Mopsuestia. Features: A critical study of the theological, cultural, and historical development of Syriac Christianity. Thorough historical, theological, and socio-cultural analysis provided for each text. A previously unidentified Christian Palestinian Aramaic fragment. *Modern Chromatographic Analysis Of Vitamins* Andre P. De Leenheer, Willy Lambert, 2000-04-18. Boisvert, Bruce McCarl, 1990. **Disinfection and Decontamination** Gurusamy Manivannan, 2007-10-04. In the battle between humans and microbes, knowledge may be not only the best weapon but also the best defense. Pulling contributions from 34 experts into a unified presentation, *Disinfection and Decontamination: Principles, Applications, and Related Issues* provides coverage that is both sophisticated and practical. The book reviews the fund. *Labor and Community* Gilbert G. Gonzalez, 1994. The emergence, maturity, and decline of the southern California citrus industry is seen here through the network of citrus worker villages that dotted part of the state's landscape from 1910 to 1960. *Labor and Community* shows how Mexican immigrants shaped a partially independent existence within a fiercely hierarchical framework of economic and political relationships. Gonzalez relies on a variety of published sources and interviews with longtime residents to detail the education of village children, the Americanization of village adults, unionization, and strikes, and the decline of the citrus picker village and rise of the urban barrio. His insightful study of the rural dimensions of Mexican American life prior to World War II adds balance to a long-standing urban bias in Chicano historiography. **West's New York Supplement**, 1990. **The Massachusetts register**, 1989. [Annual Report of the Board of Railroad Commissioners of the State of New York for the Fiscal Year Ending ...](#) New York (State). Board of Railroad Commissioners, 1902. **War Veterans and the World after 1945** Ángel Alcalde, Xosé M. Núñez Seixas, 2018-03-29. This book examines war veterans' history after 1945 from a global perspective. In the Cold War era, in most countries of the world, there was a sizeable portion of the population with direct war experience. This edited volume gathers contributions which show the veterans' involvement in all the major historical processes shaping the world after World War II. Cold War politics, racial conflict, decolonization, state building, and the reshaping of war memory were phenomena in which former soldiers and ex-

combatants were directly involved By examining how different veterans groups movements and organizations challenged or sustained the Cold War strived to prevent or to foster decolonization and transcended or supported official memories of war the volume characterizes veterans as largely independent and autonomous actors which interacted with societies and states in the making of our times Spanning historical cases from the United States to Hong Kong from Europe to Southern Africa from Algeria to Iran the volume situates veterans within the turbulent international context since World War II

Imagining the Death of Jesus in Fourth-Century Mesopotamia Blake Hartung,2023-10-09 In this volume Blake Hartung explores the place of the passion and death of Jesus in the writings of Ephrem of Nisibis ca 307 373 The book argues that the genre of Ephrem s works usually short poems for public performance is key to understanding his unsystematic approach Ephrem drew widely upon the Passion narratives and traditional motifs related to Christ s death and deployed them differently in distinct settings Each chapter explores a key theme in Ephrem s discourse about the death of Christ in context including anti Judaism the defeat of death and economic imagery Ultimately Hartung urges further consideration of the role of Christ s death in early Christian thought and practice beyond the traditional confines of atonement theology

The Logic of Regional Integration Walter Mattli,1999-05-20 In the late 1980s regional integration emerged as one of the most important developments in world politics It is not a new phenomenon however and this 1999 book presents an analysis of integration across time and across regions Walter Mattli examines projects in nineteenth and twentieth century Europe but also in Latin America North America and Asia since the 1950s Using the tools of political economy he considers why some integration schemes have succeeded while many others have failed what forces drive the process of integration and under what circumstances outside countries seek to join Unlike traditional political science approaches the book stresses the importance of market forces in determining the outcome of integration but unlike purely economic analyses it also highlights the impact of institutional factors The book will provide students of political science economics and European studies with a framework for the study of international cooperation

Democratic Enlightenment Jonathan Israel,2011-08-11 Jonathan Israel s radical new account of the late Enlightenment highlights forgotten currents and figures Running counter to mainstream thinking he demonstrates how a group of philosophe revolutionnaires provided the intellectual powerhouse of the French Revolution and how their ideas

connect with modern Western democracy Small Firms and Entrepreneurship Zoltan J. Acs, David B. Audretsch, 1993-03-11

This book analyses the relative importance of small firms in industrial economies. It brings together a series of studies spanning a spectrum of selected countries in developed Western nations and Eastern Europe to identify the exact role of small firms and how this role has evolved. A striking result which emerges is that a distinct and consistent shift away from large firms and towards small enterprises has occurred within the manufacturing sector of all Western countries while the role of small firms in Eastern European nations has been remarkably restricted and indeed all these countries have experienced a shift away from small firms. It is clear from this analysis that a major challenge for political and economic reform in Central and Eastern Europe is to create the strong entrepreneurial sector which exists in the West.
