Report of the Superintendent of Insurance for Canada Canada. Department of Insurance,1980 **Aliens on Vacation** Clete Barrett Smith,2012-05-08 Unhappy at being sent to stay with his hippie grandmother at the inn she operates The Intergalactic Bed Breakfast Scrub discovers that each room is actually a portal to space and the inn s visitors are aliens who are vacationing on Earth *The Healing Enigma* Robert Jaggs-Fowler,2018-11-20 The concept of the physician priest is an ancient one existing pre Christianity and historic references to the role can be found within the majority of religions and across all continents However despite a growing body of scientific evidence indicating the value of spirituality the 20th century medical profession within the Western world has placed religion at arm s length effectively excluding such discussion from the medical consultation Referring to both primary and secondary sources within theological medical legal historic and philosophical literature Robert puts forward an argument in support of a 21st century role for the physician priest He argues that if the physician can exercise the role of priest in addition to their medical role they can thereby truly minister to the whole person in terms of mind body and soul With consideration of modern NHS funding streams Robert suggests a radical proposal whereby the Church of England and medical educational institutions might combine to offer dual theological and medical training The result would establish a new breed of professional person ideally positioned in respect to the care of the elderly and those with terminal illness The Healing Enigma suggests that this not only assists with the provision of whole person care but also allows the Church to firmly re establish itself in the 21st century within its Christian healing tradition

The Political Anthropology of Ethnic and Religious Minorities Arpad Szakolczai,Agnes Horvath,Attila Z. Papp,2018-12-07 This book presents some arguments for why a political anthropological perspective can be particularly helpful for understanding the connected political and cultural challenges and opportunities posed by the situation of ethnic and religious minorities The first chapter shortly introduces the major anthropological concepts used including liminality trickster imitation and schismogenesis concepts that are used together with approaches of historical sociology and genealogy especially concerning the rise and fall of empires and their lasting impact The conceptual framework suggested here is particularly helpful for understanding how marginal places can become liminal appearing suddenly at the center of political attention The introduction also shows the manner in which minority existence can problematize the depersonalizing tendencies of modern globalization Subsequent chapters demonstrate how the described political anthropological conceptual framework can be used in certain European regions and in the case of certain ethnic and religious minority and each illustrates that instead of charismatic leaders trickster politicians are emerging and increasingly dominate through the public sphere the space of modern politics emptied of real presence The chapters in this book were originally published as a special issue of *Nationalism and Ethnic Politics*
