**Getting Good Crops** Robert J. Bigart, 2012-10-11 In 1870 the Bitterroot Salish Indians called Flatheads by the first white explorers to encounter them were a small tribe living on the western slope of the Northern Rocky Mountains in Montana Territory Pressures on the Salish were intensifying during this time from droughts and dwindling resources to aggressive neighboring tribes and Anglo American expansion In 1891 the economically impoverished Salish accepted government promises of assistance and retreated to the Flathead Reservation more than sixty miles from their homeland In *Getting Good Crops* Robert J Bigart examines the full range of available sources to explain how the Salish survived into the twentieth century despite their small numbers their military disadvantages and the aggressive invasion of white settlers who greedily devoured their land and its natural resources Bigart argues that a key to the survival of the Salish from the early nineteenth century onward was their diplomatic agility and willingness to form strategic alliances and friendships with non Salish peoples In doing so the Salish navigated their way through multiple crises relying more on their wits than on force The Salish also took steps to sustain themselves economically Although hunting and gathering had been their mainstay for centuries the Salish began farming getting good crops to feed themselves because buffalo were becoming increasingly scarce Raised on the Flathead Reservation himself the author is seeking to convey the Salish story from their perspective despite the paucity of written Salish testimony What emerges is a picture both inspiring and heartbreaking of a people maintaining autonomy against all odds Annual Report of the Comptroller of the Treasury of the State of New Jersey to the Legislature New Jersey.
