Miller,1975 When I was Dickinson Miller s assistant from 1940 to 1942 I soon realized that I had encountered an unusually powerful acute and original mind and a writer whose clear but vivid style matched the high quality of his intelligence These traits were apparent in his comments about eminent philosophers with whom he had associated particularly William James but also Santayana Dewey Husserl and Wittgenstein and in the mutual criticism he demanded of his writing and my first efforts I was pleased and felt immensely privileged to share in his planning of a book devoted to analysis the method of philosophy at work as in his articles on the knowledge problem induction and free will In view of the penetration of his articles such a book seemed long overdue as James had insisted even in 1905 When Miller s projected book on analysis at work did not appear by 1956 I consulted him about putting together a collection of his published essays Such a collection seemed but slight homage to one who had made such a striking contribution to American philosophy in relation to James and one from whom I had learned so much He felt however that such a collection would be inappropriate and preferred to concentrate on a book never finished on the principles of practical intelligence the application of intelligence in a morality of results for human welfare      Weekly Abstract of Sanitary Reports ,1893      *An Alphabetical Subject Index and Index Encyclopaedia to Periodical Articles on Religion, 1890-1899* Ernest Cushing Richardson,1907      **Mergent Industrial Manual** ,2003
