*Local Area Personal Income*, 1986      **Free Gifts** Alyssa Battistoni, 2025-08-19 A timely new critique of capitalism's persistent failure to value nature. Capitalism is typically treated as a force for relentless commodification. Yet it consistently fails to place value on vital aspects of the nonhuman world, whether carbon emissions or entire ecosystems. In *Free Gifts*, Alyssa Battistoni explores capitalism's persistent failure to value nature, arguing that the key question is not the moral issue of why some kinds of nature shouldn't be commodified but the economic puzzle of why they haven't been. To understand contemporary ecological problems from biodiversity collapse to climate change, she contends, we have to understand how some things come to have value under capitalism and how others do not. To help us do so, Battistoni recovers and reinterprets the idea of the free gift of nature used by classical economic thinkers to describe what we gratuitously obtain from the natural world and builds on Karl Marx's critique of political economy to show how capitalism fundamentally treats nature as free for the taking. This novel theory of capitalism's relationship to nature not only helps us understand contemporary ecological breakdown but also casts capitalism's own core dynamics in a new light. Battistoni addresses four different instances of the free gift in political economic thought, each in a specific domain: natural agents in industry, pollution in the environment, reproductive labor in the household, and natural capital in the biosphere. In so doing, she offers new readings of major twentieth-century thinkers including Friedrich Hayek, Simone de Beauvoir, Garrett Hardin, Silvia Federici, and Ronald Coase. Ultimately, she offers a novel account of freedom for our ecologically troubled present, developing a materialist existentialism to argue that capitalism limits our ability to be responsible for our relationships to the natural world and imagining how we might live freely while valuing nature's gifts.

**Explorations in Christian Theology and Ethics** Michelle J. Bartel, 2016-04-22 Engaging variously with the legacy of Paul L. Lehmann, these essays argue for a reorientation in Christian theology that better honours the formative power of the gospel to animate and shape doctrine and witness, as well as ethical and political life. The authors explore key themes in Christian theology and ethics: forgiveness, discernment, responsibility, spirituality, the present-day tasks of theology, and the role of faith in public life, making plain the unabated importance of Lehmann's work at this juncture in contemporary theology. The internationally recognized contributors draw crucial connections between the gospel of reconciliation, the form of Christian theology and witness, and the challenges of contemporary ethical and political reflection. This book demonstrates why this close friend of Dietrich Bonhoeffer and author of *Ethics in a Christian Context* and *The Transfiguration of Politics* continues to influence generations of theologians in both the English-speaking world and beyond.

**Pontano's Virtues** Matthias Roick, 2017-02-23 First secretary to the Aragonese kings of Naples, Giovanni Pontano (1429–1503) was a key figure of the Italian Renaissance. A poet and a philosopher of high repute, Pontano's works offer a reflection on the achievements of fifteenth-century humanism and address major themes of early modern moral and political thought. Taking his defining inspiration from Aristotle, Pontano wrote on topics such as

prudence fortune magnificence and the art of pleasant conversation rewriting Aristotle's Ethics in the guise of a new Latin philosophy inscribed with the patterns of Renaissance culture This book shows how Pontano's rewriting of Aristotelian ethics affected not only his philosophical views but also his political life and his place in the humanist movement Drawing on Pontano's treatises dialogues letters poems and political writings Matthias Roick presents us with the first comprehensive study of Pontano's moral and political thought offering novel insights into the workings of Aristotelian virtue ethics in the early modern period

*The Sea and Civilization* Lincoln Paine, 2015-10-27 A monumental retelling of world history through the lens of the sea revealing in breathtaking depth how people first came into contact with one another by ocean and river lake and stream and how goods languages religions and entire cultures spread across and along the world's waterways bringing together civilizations and defining what makes us most human The Sea and Civilization is a mesmerizing rhapsodic narrative of maritime enterprise from the origins of long distance migration to the great seafaring cultures of antiquity from Song Dynasty human powered paddle boats to aircraft carriers and container ships Lincoln Paine takes the reader on an intellectual adventure casting the world in a new light in which the sea reigns supreme Above all Paine makes clear how the rise and fall of civilizations can be linked to the sea An accomplishment of both great sweep and illuminating detail The Sea and Civilization is a stunning work of history

architecture creates an affect of overwhelming weight and destruction Mbembe contends that contemporary capitalism crushes and dominates all spheres of existence In our digital technologically focused era capitalism has produced a becoming artificial of humanity and the becoming human of machines This blurring of the natural and artificial presents a planetary existential threat in which contemporary society s goal is to precipitate the mutation of the human species into a condition that is at once plastic and synthetic Mbembe argues that Afro diasporic thought presents the only solution for breaking the totalizing logic of contemporary capitalism repairing that which is broken developing a new planetary consciousness and reforming a community of humans in solidarity with all living things
