*Religious Inventions* William Arnal,Erin K. Vearncombe,2025-05-13 Religion is a modern invention a category used to describe and study certain kinds of human behaviour Yet when it comes to the ancient world and its texts including those that comprise the Jewish and Christian Bibles it can be easy to forget that they did not fall from the sky as simple expressions of dogma Rather the ancient writings of early Judaism and Christianity are firmly rooted in the world and are the product of an astonishing array of human experience and agency acts of self fashioning of imaginative speculation of mourning and memorializing of forming dissolving or refashioning group identities and more Religious Inventions asks how modern conceptions of religion can shed light on the relics textual and otherwise of ancient Mediterranean Jews and Christians What insights from the contemporary study of religious behaviours and practices challenge what we think we know about the ancient world Conversely how can thinking about the ancient world challenge what we think we know about religion today This volume responds to these questions through explorations of the material and social circumstances behind the production of written artifacts It examines how religious practices relate to conceptions of identity and critiques the utility of the comparative method for approaching ancient writings Textual authority is used and abused by many of today's public figures Religious Inventions offers an alternative

approach to understanding how authority is constructed from the ground up by the creative actions and choices of real people who lived long ago      **After the Grizzly** Peter S. Alagona, 2020-02-25 This book traces the history of threats to species and habitat in California from the time of the Gold Rush to the present The author shows how over the course of more than a century scientists and conservationists came to view the fates of endangered species as dependent on the ecological conditions and human activities in the places where those species lived The story begins with the tale of the state's extinct mascot the California grizzly and the conservation movements and laws that followed its disappearance The second half of the book focuses on four high profile endangered species the California condor the desert tortoise the San Joaquin kit fox and the Delta smelt The author offers an account of how Americans developed a civil system in which imperiled species serve as proxies for broader conflicts about the politics of place The book concludes that the challenge for conservationists in the twenty first century will be to expand habitat conservation beyond protected wildlands to build more diverse and sustainable landscapes      Art/Women/California, 1950-2000 Diana Burgess Fuller, Daniela Salvioni, 2002-05-29 This is the book on women's art I've been waiting for smart deeply rooted and up to date with an overdue focus on women of color that fills in the historical cracks Read it and run with it Lucy R Lippard author of The Pink Glass Swan Selected Essays on Feminist Art More than merely beautiful and ground breaking Art Women California 1950 2000 is also about the enriching interventions created by diverse women artists the effect of whose work is not only far reaching but has also opened up the very definition of American art It is about intellectual interdisciplinarity and the dialectical relationship between art and social context It is about the way various California cultures Native Latino Asian feminist immigrant politically active and virtual which are so different from the trope of the Western cowboy have intervened in that entity we imagine as America Elaine Kim editor of Dangerous Women Gender and Korean Nationalism Rich and provocative A pleasure to read and to look at Linda Nochlin author of The Body in Pieces The Fragment as a Metaphor of Modernity This book should greatly help everyone understand the remarkably diversified evolution of art in California which is largely due to the great influx of women and the transformative effect of a new feminist consciousness Arthur C Danto author of Philosophizing Art Selected Essays      Foreign Acquisitions Newsletter , 1977      **Rise of the International** Richard Devetak, Tim Dunne, 2024-05-06

**Cast Out of the Covenant** Adele Reinhartz, 2020-07-07 The Gospel of John presents its readers listeners and interpreters with a serious problem how can we reconcile the Gospel's exalted spirituality and deep knowledge of Judaism with its portrayal of the Jews as the children of the devil John 8 44 who persecuted Christ and his followers One widespread solution to this problem is the so called expulsion hypothesis According to this view the Fourth Gospel was addressed to a Jewish group of believers in Christ that had been expelled from the synagogue due to their faith The anti Jewish elements

express their natural resentment of how they had been treated the Jewish elements of the Gospel on the other hand reflect the Jewishness of this group and also soften the force of the Gospel's anti Jewish comments In *Cast out of the Covenant* this book Adele Reinhartz presents a detailed critique of the expulsion hypothesis on literary and historical grounds She argues that far from softening the Gospel's anti Jewishness the Gospel's Jewish elements in fact contribute to it Focusing on the Gospel's persuasive language and intentions Reinhartz shows that the Gospel's anti Jewishness is evident not only in the Gospel's hostile comments about the Jews but also in its appropriation of Torah Temple and Covenant that were so central to first century Jewish identity Through its skillful use of rhetoric the Gospel attempts to convince its audience that God's favor had turned away from the Jews to the Gentiles that there is a deep rift between the synagogue and those who confess Christ as Messiah and that in the Gospel's view this rift was initiated in Jesus' own lifetime The *Fourth Gospel* Reinhartz argues appropriates Jewishness at the same time as it repudiates Jews In doing so it also promotes a parting of the ways between those who believe that Jesus is the messiah the Son of God and those who do not that is the Jews This rhetorical program she suggests may have been used to promote outreach or even an organized mission to the Gentiles following in the footsteps of Paul and his mid first century contemporaries *Index to Witness and Organization Appearances Before the House Select Committee on Aging During the 94th Congress, 1975-1976* United States. **Marcus Aurelius' Rain Miracle and the Marcomannic Wars** Peter Kovács, 2009-01-31 The longest war of the Roman imperial period is the war Marcus Aurelius waged with the northern German and Sarmatian tribes The best known events of these wars were the lightning and rain miracles Divine intervention saved the Roman troops who were surrounded by the Germans and suffering from a water shortage by means of a lightning and rain miracle Thunderbolts struck the enemy while the rain soothed the Romans suffering Several pagan and Christian versions of the miracle existed already in Antiquity Peter Kovács examines these events and their sources in detail The most important source is the Column of Marcus Aurelius in Rome The scenes of the column depict the miracles as well and therefore it was studied separately The author also sketches the history of the Marcomannic

**Opening Doors: Life and Work of Joseph Schumpeter** Robert Loring Allen, 2017-12-02 The author puts this book in the best possible context by referring to the magisterial and paradoxical Dr Schumpeter A figure in a rare class with John Maynard Keynes Friedrich von Hayek and Alfred Marshall the work of Joseph Schumpeter is equalled only in monumental significance by his personal trials and tribulations The work is divided into two volumes the first covering his career in Europe and the second his life and achievements in America Walt Rostow in his Foreword sums up Robert Loring Allen s achievement in biography and intellectual history thus In dealing with Schumpeter s life Allen exhibits a rare consciousness of the extraordinary complexity and only limited penetrability of the human personality Schumpeter s closely interwoven personal and professional life unfolds Allen develops without dogmatism a pattern of linkages for the reader to contemplate In a splendid final passage he provides a memorable summation What makes this enormous effort so successful is the linkage of the personal and the professional the biographical with the intellectual Indeed it is Schumpeter s single minded determination to explain within a single formal theory the dynamics of capitalism that bridges the gap in space time and personality To his books The Theory of Economic Development and Capitalism Socialism and Democracy both published by Transaction is now added the specific contexts in which these and his other works were written The author of this biography like the subject himself is a masterful student of the craft of economics and its place within the larger social science contexts that Schumpeter worked In this work we are introduced into the main current of European and American social science alike The title of the book Opening Doors derives from Schumpeter s life long aim to appeal to inquiring minds to move through such doors in an effort to create the social science of the
