Cambodian Economy Hang Chuon Naron,2011 This monumental study by arguably the most respected economic policymaker in the Cambodian government over the past decade is a very welcome addition to the sparse literature on the Cambodian economy It is destined to become the standard reference on economic development in post conflict Cambodia The volume s 25 chapters are grouped into nine sections geography and population the macroeconomic framework the challenge of modernising agriculture the challenge of industrialisation services and infrastructure human resource development international economic relations and a conclusion The content is encyclopaedic with an immense amount of detail on practically every conceivable aspect of the country s development Dr Naron is to be congratulated for fitting this admirable project into his extremely demanding daytime job as the secretary of state in the Ministry of Economy and Finance along with many other responsibilities Among the many reasons to welcome its publication is its authentic Cambodian voice and perspective in a literature dominated by foreign researchers A generation of scholars on the Cambodian economy and all those with an interest in the country are in his debt Asian Pacific Economic Literature
