**African Culture and Global Politics** Toyin Falola, Danielle Sanchez, 2014-01-10 This volume attempts to insert itself within the larger discussion of Africa in the twenty first century especially within the realm of world politics Despite the underwhelming amount of attention given to Africa's role in international politics in popular news sources it is evident that Africa has a consistent record of participating in world politics one that pre dates colonization and continues today In continuance of this legacy of active participation in global political exchanges Africans today can be heard in dialogues that span the world and their roles are impossible to replace by other entities It is evident that a vastly different Africa exists than ones that bolster images of starvation corruption and compliance The essays in this volume center on Africa and Africans participating in international political discourses but with an emphasis on various forms of expression and philosophies as these factors heavily influence Africa's role as a participant in global politics The reader will find a variety of essays that permeate surface discussions of politics and political activism by inserting African culture rhetoric philosophies into the larger discussion of international politics and Africa's role in worldwide political social and economic debates

**Military Entrepreneurs and the Spanish Contractor State in the Eighteenth Century** Rafael Torres Sánchez, 2016 Military Entrepreneurs and the Spanish Contractor State in the Eighteenth Century offers a new approach to the relationship between warfare and state construction Historians looking at how war funding impinged on state development and how state growth made wars more significant have tended to downplay the role of military provisioning entrepreneurs Written off as corrupt and selfish these entrepreneurs jarred with the received view of a rationally growing and modernising state This volume shows that the state entrepreneur relationship was much more fluid and constant than previously thought The state was not able to enforce a top down military supply policy at the same time it benefited from the entrepreneurs collaboration and their shared mercantilist ambitions The entrepreneurs mobilisation of military supplies was crucial for extending state authority and helped to knit together national and colonial markets But this fluid state entrepreneur relationship gradually became shrouded in privileges and monopolies not so much ideology driven or imposed by the entrepreneurs but rather as an arrangement exploited by the state to boost its control over them whittling down middlemen and ensuring the solvency and creditworthiness of the chosen few This arrangement spiralled into a risky inter dependence and cramped entrepreneurial competition Rafael Torres Sanchez furnishes new insights into the role of military entrepreneurs in debates about warfare and state construction

**Land Bargains and Chinese Capitalism** Meg E. Rithmire, 2015-10-06 Land reforms have been critical to the

development of Chinese capitalism over the last several decades yet land in China remains publicly owned This book explores the political logic of reforms to land ownership and control accounting for how land development and real estate have become synonymous with economic growth and prosperity in China Drawing on extensive fieldwork and archival research the book tracks land reforms and urban development at the national level and in three cities in a single Chinese region The study reveals that the initial liberalization of land was reversed after China s first contemporary real estate bubble in the early 1990s and that property rights arrangements at the local level varied widely according to different local strategies for economic prosperity and political stability In particular the author links fiscal relations and economic bases to property rights regimes finding that more open cities are subject to greater state control over land     **Internal Accounting Control Evaluation and Auditor Judgement** Theodore J. Mock, Jerry L. Turner, 2013-10-11 This anthology presents the results of a comprehensive empirical study of internal control evaluation and auditor judgment initiated by Peat Marwick Mitchell Co in 1977 and originally published as an American Institute of CPAs research monograph in 1981 which was awarded the American Accounting Association Wildman Award in 1982 This book contains an updated review of the professional literature related to internal control multivariate analyses of the original statistics and analyses of the decision criteria used by the auditors     **Escaping the Global Village** Niamh Hourigan, 2004-01-01 In the face of expanding global media Europe s linguistic minorities have begun to resist the homogenizing forces of television Escaping the Global Village documents and analyzes various campaigns by indigenous minority language advocates throughout Europe for alternative language television services     **The Poem as Sacrament** Philip A. Ballinger, 2000 Through a study of the writings and intellectual development of Gerard Manley Hopkins Dr Philip Ballinger demonstrates why poetry is as Hans Urs von Balthasar stated the absolutely appropriate theological language While circling Hopkins visions of the nature of sensual experience intuitive cognition and the function of language Ballinger focuses upon the sacramental intention of the Victorian Jesuit s poetry Underlying Hopkins poetry is a vision of reality as divinely revelatory or self expressive For Hopkins this revelatory character of creation is determined by the incarnation and beauty in fact is a word for Christic self expressiveness     **The Protean Ass** Robert H. F. Carver, 2007-12-06 The Protean Ass provides the most comprehensive account in any language of the reception of The Golden Ass or Metamorphoses of Apuleius the only work of Latin prose fiction worthy of the name of novel to survive intact from the ancient world Apuleius second century account of the curious young man who is changed into a donkey following an affair with a witch s slave girl and undergoes a series of adventures involving robbery adultery buggery and bestiality before a divine vision transforms him into a disciple of the goddess Isis has delighted perplexed and inspired readers as diverse as St Augustine Petrarch Boccaccio Sidney Spenser Shakespeare and Milton Robert H F Carver traces readers responses to the novel from the third to the seventeenth centuries in North Africa Italy France Germany and England     **The Sandinista Revolution** Mateo Jarquín, 2024-04-30 The Sandinista Revolution and its victory against the Somoza

dictatorship in Nicaragua gripped the United States and the world in the 1980s But as soon as the Sandinistas were voted out of power in 1990 and the Iran Contra affair ceased to make headlines it became in Washington at least a thing of the past Mateo Jarquin recenters the revolution as a major episode in the history of Latin America the international left and the Cold War Drawing on research in Nicaragua Cuba Mexico Panama and Costa Rica he recreates the perspective of Sandinista leaders in Managua and argues that their revolutionary project must be understood in international context Because struggles over the Revolution unfolded transnationally the Nicaraguan drama had lasting consequences for Latin American politics at a critical juncture It also reverberated in Western Europe among socialists worldwide and beyond illuminating global dynamics like the spread of democracy and the demise of a bipolar world dominated by two superpowers Jarquin offers a sweeping analysis of the last left wing revolution of the twentieth century an overview of inter American affairs in the 1980s and an incisive look at the making of the post Cold War order

Contemporary Research in Engineering Science

Romesh C. Batra,2012-12-06 Fatigue failures occur in aerospace marine nuclear structures and automobile components from initiation and propagation of cracks from holes scratches or defects in the material To design against these failures crack propagation life and fracture strength need to be accurately predicted It is reported in the literature that these failures often initiate as surface cracks corner cracks and cracks emanating from fastener holes Such cracks are with elliptic or nearly elliptic in shapes The deviation from elliptic shape is due to varying constraint effect along the crack front Even in situations when the cracks are through the thickness of the material there would be thicknesswise variation of constraint effects leading to three dimensional nature of crack growth Accurate predictions of the crack growth in these cases by numerical methods can be made only by solving three dimensional boundary value problems Empirical relationships have been developed 1 based on Linear Elastic Fracture Mechanics over years describing fatigue crack growth response Some of these empirical relationships required modifications in the later stages to meet the design applications The Crack closure phenomenon discovered by Elber 2 3 during the crack growth phase is mainly attributed to the local material yielding near the crack tip and the consequent residual plastic wake behind the crack tip It helped considerably in understanding several aspects of fatigue crack growth and rewrite these relations

**The Golden Mean of Languages**

Alisa van de Haar,2019-09-02 In The Golden Mean of Languages Alisa van de Haar sheds new light on the debates regarding the form and status of the vernacular in the early modern Low Countries where both Dutch and French were local tongues The fascination with the history grammar spelling and vocabulary of Dutch and French has been studied mainly from monolingual perspectives tracing the development towards modern Dutch or French Van de Haar shows that the discussions on these languages were rooted in multilingual environments in particular in French schools Calvinist churches printing houses and chambers of rhetoric The proposals that were formulated there to forge Dutch and French into useful forms were not directed solely at uniformization but were much more diverse

Shakespeare and Contemporary Fiction

Barbara L.

Estrin,2012 As the first book to use fiction as theory Shakespeare and Contemporary Fiction reads backward to demonstrate how recent novelists redeploy founding and lyric plots to uncover a Shakespeare who similarly challenges the mythological homogeneity that scripts us *The Bakhtin Circle Today* Myriam Díaz-Diocaretz,1989 Technology in Transition Luke Lavan, Enrico Zanini, Alexander Constantine Sarantis,2007 This book is the first general work to be published on technology in Late Antiquity It seeks to survey aspects of the technology of the period and to respond to questions about technological continuity stagnation and decline The book opens with a comprehensive bibliographic essay that provides an overview of relevant literature The main section then explores technologies in agriculture production metal ceramics and glass engineering and building Papers draw on both archaeological and textual sources and on analogies with medieval and early modern technologies Reference is made not only to the periods which preceded it but to the transition to the Early Middle Ages and to the technological heritage of Late Antiquity to the Islamic world Several papers focus on Italy whilst others consider North Africa Asia Minor and the Near East Calvin, Participation, and the Gift J. Todd Billings,2007-11-15 Is the God of Calvin a fountain of blessing or a forceful tyrant Is Calvin's view of God coercive leaving no place for the human qua human in redemption These are perennial questions about Calvin's theology which have been given new life by Gift theologians such as John Milbank Graham Ward and Stephen Webb J Todd Billings addresses these questions by exploring Calvin's theology of participation in Christ He argues that Calvin's theology of participation gives a positive place to the human such that grace fulfils rather than destroys nature affirming a differentiated union of God and humanity in creation and redemption Calvin's trinitarian theology of participation extends to his view of prayer sacraments the law and the ecclesial and civil orders In light of Calvin's doctrine of participation Billings reframes the critiques of Calvin in the Gift discussion and opens up new possibilities for contemporary theology ecumenical theology and Calvin scholarship as well

**The Wild Bunch** Bill Mesce, Jr.,2020-01-17 One of the most controversial films of its time The Wild Bunch is the epitome of the no holds barred filmmaking of the 1960s and 1970s Since its 1969 release it has come to be recognized not only as an iconic Western but as one of the most important films in the American cinematic canon Over the years a parade of filmmakers have tried to imitate its gut punch effects but none have equaled it The Wild Bunch revived the floundering career of volatile self destructive director Sam Peckinpah it also hung on him the label Bloody Sam This book tells the complete story of the film's production reception and legacy **In the Name of El Pueblo** Paul Eiss,2010-07-30 The term el pueblo is used throughout Latin America referring alternately to small towns to community or to the people as a political entity In this vivid anthropological and historical analysis of Mexico's Yucatán peninsula Paul K Eiss explores the multiple meanings of el pueblo and the power of the concept to unite the diverse claims made in its name Eiss focuses on working class indigenous and mestizo populations examining how those groups negotiated the meaning of el pueblo among themselves and in their interactions with outsiders including landowners activists and government officials Combining

extensive archival and ethnographic research he describes how residents of the region have laid claim to el pueblo in varied ways as exemplified in communal narratives recorded in archival documents in the performance of plays and religious processions and in struggles over land politics and the built environment Eiss demonstrates that while el pueblo is used throughout the hemisphere the term is given meaning and power through the ways it is imagined and constructed in local contexts Moreover he reveals el pueblo to be a concept that is as historical as it is political It is in the name of el pueblo rather than class race or nation that inhabitants of northwestern Yucatán stake their deepest claims not only to social or political rights but over history itself

**Dreams of Fiery Stars** Catherine Rainwater, 1999 In *Dreams of Fiery Stars* Catherine Rainwater examines the novels of writers such as Momaday Linda Hogan Leslie Marmon Silko Gerald Vizenor and Louise Erdrich and contends that the very act of writing narrative imposes constraints upon these authors that are foreign to Native American tradition Their works amount to a break with and a transformation of American Indian storytelling

**Webs of Kinship** Christina Gish Hill, 2017-04-27 Many stories that non Natives tell about Native people emphasize human suffering the inevitability of loss and eventual extinction whether physical or cultural But the stories Northern Cheyennes tell about themselves emphasize survival connectedness and commitment to land and community In *webs of Kinship* anthropologist Christina Gish Hill has worked with government records and other historical documents as well as the oral testimonies of today's Northern Cheyennes to emphasize the ties of family rather than the ambitions of individual leaders as the central impetus behind the nation's efforts to establish a reservation in its Tongue River homeland Hill focuses on the people who lived alongside notable Cheyennes such as Dull Knife Little Wolf Little Chief and Two Moons to reveal the central role of kinship in the Cheyennes navigation of U.S. colonial policy during removal and the early reservation period As one of Hill's Cheyenne correspondents reminded her Dull Knife had a family just as all of us do He and other Cheyenne leaders made decisions with their entire extended families in mind not just those living but those who came before and those yet to be born *Webs of Kinship* demonstrates that the Cheyennes used kinship ties strategically to secure resources escape the U.S. military and establish alliances that in turn aided their efforts to remain a nation in their northern homeland By reexamining the most tumultuous moments of Northern Cheyenne removal this book illustrates how the power of kinship has safeguarded the nation's political autonomy even in the face of U.S. encroachment allowing the Cheyennes to shape their own story
