recently published European Commission's White Paper on environmental liability are also discussed. The ongoing development in various international forums of treaties or protocols dealing with liability for environmental damage are analyzed as are the principles developed by the UNEP Working Group established in response to the 1990 Gulf War to advise the UNCC on claims for damage to natural resources. The book addresses assessment and valuation issues, the issue of standing in cases of injury to unowned natural resources and the determination of ways to repair, restore and compensate for natural resource injuries and the associated loss of ecological and human services. It also explains why such a difference exists between the US and most European jurisdictions and international liability conventions as to the recovery of damages for injury to natural resources. *APAIS 1992: Australian public affairs information service* ,
