Digest of Education Statistics, 2000 Contains information on a variety of subjects within the field of education statistics including the number of schools and colleges enrollments teachers graduates educational attainment finances Federal funds for education libraries international education and research and development **Supreme Court Case on Appeal Volume I**, **Yiddish** S.A. Birnbaum, 2016-01-01 The second edition of Yiddish A Survey and a Grammar makes this classic text available again to students teachers and Yiddish speakers alike *Bulletin - American Railway Engineering Association* American Railway Engineering Association, 1914 **Achieving Blackness** Algernon Austin, 2006-04-10 Achieving Blackness offers an important examination of the complexities of race and ethnicity in the context of black nationalist movements in the United States By examining the rise of the Nation of Islam the Black Power Movement of the 1960s and 1970s and the Afrocentric era of the 1980s through 1990s Austin shows how theories of race have shaped ideas about the meaning of Blackness within different time periods of the twentieth century Achieving Blackness provides both a fascinating history of Blackness and a theoretically challenging understanding of race and ethnicity Austin traces how Blackness was defined by cultural ideas social practices and shared identities as well as shaped in response to the social and historical conditions at different moments in American history Analyzing black public opinion on black nationalism and its relationship with class Austin challenges the commonly held assumption that black nationalism is a lower class phenomenon In a refreshing and final move he makes a compelling argument for rethinking contemporary theories of race away from the current fascination with physical difference which he contends sweeps race back to its misconceived biological underpinnings Achieving Blackness is a wonderful contribution to the sociology of race and African American Studies *Storage of Water on Cache la Poudre and Big Thompson Rivers* Clarence Everett Tait, 1903 *Water-resources Investigations Report*, 2000 Bulletin United States. Office of Experiment Stations, 1903 *Understanding Chronic Fatigue Syndrome* Naheed Ali, 2015-09-22 Chronic fatigue syndrome CFS is a condition that causes persistent and debilitating tiredness The condition has no obvious cause but persists for more than six months and patients tend to avoid activity due to constant fatigue A wide variety of causes are thought to contribute to the condition while the relatively low disease prevalence and lack of diagnostic criteria has made it difficult to identify and diagnose CFS Here Naheed Ali presents an overview of CFS its causes symptoms and outcomes and the treatment options available to sufferers He also includes information about lifestyle changes preventative measures and emotional and mental approaches to having the disorder Readers will find here a ready resource for understanding CFS and the various ways of approaching it and living well in spite of it The Subject of Liberty Nancy J. Hirschmann, 2009-01-10 This book reconsiders the dominant Western understandings of freedom through the lens of women s real life experiences of domestic violence welfare and Islamic veiling Nancy Hirschmann argues that the typical approach to freedom found in political philosophy severely reduces the concept s complexity which is more fully revealed by taking such

practical issues into account Hirschmann begins by arguing that the dominant Western understanding of freedom does not provide a conceptual vocabulary for accurately characterizing women's experiences Often free choice is assumed when women are in fact coerced as when a battered woman who stays with her abuser out of fear or economic necessity is said to make this choice because it must not be so bad and coercion is assumed when free choices are made such as when Westerners assume that all veiled women are oppressed even though many Islamic women view veiling as an important symbol of cultural identity Understanding the contexts in which choices arise and are made is central to understanding that freedom is socially constructed through systems of power such as patriarchy capitalism and race privilege Social norms practices and language set the conditions within which choices are made determine what options are available and shape our individual subjectivity desires and self understandings Attending to the ways in which contexts construct us as subjects of liberty Hirschmann argues provides a firmer empirical and theoretical footing for understanding what freedom means and entails politically intellectually and socially

Imperial Reckoning Caroline Elkins, 2010-04-01 A major work of history that for the first time reveals the violence and terror at the heart of Britain's civilizing mission in Kenya As part of the Allied forces thousands of Kenyans fought alongside the British in World War II But just a few years after the defeat of Hitler the British colonial government detained nearly the entire population of Kenya's largest ethnic minority the Kikuyu some one and a half million people The compelling story of the system of prisons and work camps where thousands met their deaths has remained largely untold the victim of a determined effort by the British to destroy all official records of their attempts to stop the Mau Mau uprising the Kikuyu people's ultimately successful bid for Kenyan independence Caroline Elkins an assistant professor of history at Harvard University spent a decade in London Nairobi and the Kenyan countryside interviewing hundreds of Kikuyu men and women who survived the British camps as well as the British and African loyalists who detained them The result is an unforgettable account of the unraveling of the British colonial empire in Kenya a pivotal moment in twentieth century history with chilling parallels to America's own imperial project *Imperial Reckoning* is the winner of the 2006 Pulitzer Prize for Nonfiction

Stealing the State Steven Lee Solnick, 1998 Solnick argues that the Soviet system fell victim not to stalemate at the top nor to revolution from below but to opportunism from within In case studies on the Communist Youth League the system of job assignments for university graduates and military conscription he tells the story from a new perspective testing Western theories of reform

Wake Up Little Susie Rickie Solinger, 2013-10-15 Rickie Solinger's passionate and powerful history serves to remind us of the importance of the feminist efforts that led to *Roe v Wade* and the many other measures that have liberated women from the constraints of the past From the new foreword by Elaine Tyler May Twenty five years after the Supreme Court's landmark decision abortion rights are as fiercely contested as ever and current debates over welfare workfare and public assistance to women with children demonstrate the way in which race and class continue to effect women's reproductive freedom A pioneering work *Wake Up Little Susie* reveals how current

attitudes toward these issues developed by examining their roots in the postwar era and discerning how differently they affected black and white women A powerful and shocking book *Susie* is a must read for anyone seeking to understand the complex and disturbing politics surrounding issues of race class and reproductive rights This new edition includes a foreword by the esteemed social historian Elaine Tyler May and an afterword by the author that places the issues examined in *Susie* in the context of the current controversies

Depositional Environment, Stratigraphy, and Vertical Hydraulic Conductivity of the St. Francois Confining Unit in the Fristoe Unit of the Mark Twain National Forest, Missouri Michael J. Kleeschulte, Cheryl M. Seeger, 2000

Beggars and Choosers Rickie Solinger, 2002-09-18 In *Beggars and Choosers* Rickie Solinger shows that historical distinctions between women of color and white women between poor and middle class women persisted and were used in new ways during the era of choice Politicians and policy makers excluded certain women from the class of deserving mothers by using the language of choice to create public policies concerning everything from Medicaid funding for abortions to family tax credits infertility treatments international adoption teen pregnancy and welfare Solinger argues that a guarantee of choice when the word is imbued with the old prejudices of class and race is a shaky foundation on which to build our concept of reproductive freedom

BOOK JACKET

Dark Eyes on America Gavin Cologne-Brookes, 2009-08-01 A sound and engaging book that creates a balanced overview of Oates's career while tackling the question of her role in the wider community

Modern Fiction Studies Joyce Carol Oates is America's most extraordinary and prolific woman of letters In *Dark Eyes on America* Gavin Cologne Brookes illuminates the vision of this remarkable master of her craft finding evidence in her novels of an evolving consciousness that ultimately forgoes abstract introspection in favor of a more practical approach to art as a tool for understanding both personal and social challenges With her clear-eyed perception of human behavior Oates has for decades offered unhesitating explorations of genre topic and style making her an inevitable if somewhat elusive subject for critical assessment Cologne Brookes's conversations and correspondence with Oates his close textual study of her novels and abundant references to her essays stories poetry and plays result in a work that critically synthesizes the layers of her writing This comprehensive yet accessible study offers an essential analysis of one of the twentieth century's most significant writers A thoughtful thorough study which encourages readers to re-examine Oates's novels within a philosophical context
