Source Book of Statistics of Income, 1999 **World of Sport** Matthew Taylor, 2024-12-10 *World of Sport* examines the development of modern sport from the mid nineteenth century to the 1960s in the light of transnational approaches to history. Critically probing existing studies and offering new insights this volume demonstrates that while sport was a national and international phenomenon it was invariably constructed transnationally. Taking in topics ranging from the dissemination of football codes to transpacific surfing cultures and the touring lives of baseball and hockey players to the contact zones of international competition it emphasises the importance of transnational perspectives in the way people around the globe experience sport. Like other forms of popular culture sport cannot be properly understood without reference to the cross national connections that helped to disseminate rules and regulations, circulated styles of play and performance and drove forward regional and international competition. Drawing on case studies that range time periods and continents *World of Sport* is a must read for students and researchers interested in the place of sport in the interconnected modern world and the transnational origins of the global sporting order in the twenty first century **Scots in Victorian and Edwardian Belfast**

Kyle Hughes, 2013-12-11 *A new departure in Scottish and Irish migration studies* The Scottish diasporic communities closest to home those which are part of what we sometimes term the near Diaspora are those we know least about. Whilst an interest in the overseas Scottish diaspora has grown in recent years Scots who chose to settle in other parts of the United Kingdom have been largely neglected. This book addresses this imbalance. Scots travelled freely around the industrial centres of northern Britain throughout the nineteenth and early twentieth centuries and Belfast was one of the most important ports of call for thousands of Scots. The Scots played key roles in shaping Belfast society in the modern period; they were essential to its industrial development; they were at the centre of many cultural, philanthropic and religious initiatives and were welcomed by the host community accordingly. Yet despite their obvious significance in staunchly Protestant Unionist and at times insular and ill at ease Belfast individual Scots could be viewed with suspicion by their hosts, dismissed as strangers and cast in the role of interfering outsiders. **Key Features** The only book length scholarly study of the Scots in modern Ireland. Brings to light the fundamental importance of Scottish migration to Belfast society during the nineteenth century. Advances our knowledge and understanding of Scotland's near diaspora. Highlights areas of tension in Ulster Scottish relations during the Home Rule era. Puts forward a new agenda for a better understanding of British migration to Ireland in the modern period.

American literature but in recent years the trend toward a transnational perspective in scholarship has brought his work to increasing prominence. Indeed, the complicated web of transnational contact zones where Polish, Argentinean, French, and German cultures intersect to influence his work is now seen as the appropriate lens through which his creativity ought to be examined. This volume contributes to the transnational interpretation of Gombrowicz by bringing together a distinguished group of North American, Latin American, and European scholars to offer new analyses in three distinct themes of study that have not as yet been greatly explored: Translation, Affect, and Politics. How does one translate not only Gombrowicz's words into various languages but the often culturally laden meaning and the particular style and tone of his writing? What is it that passes between author and reader that causes an affect? How did Gombrowicz's negotiation of the turbulent political worlds of Poland and Argentina shape his writing? The three divisions of this collection address these questions from multiple perspectives, thereby adding significantly to little-known aspects of his work.

Crime Fiction and National Identities in the Global Age Julie H. Kim, 2020-05-05 To read a crime novel today largely simulates the exercise of reading newspapers or watching the news. The speed and frequency with which today's

bestselling works of crime fiction are produced allow them to mirror and dissect nearly contemporaneous socio political events and conflicts This collection examines this phenomenon and offers original critical essays on how national identity appears in international crime fiction in the age of populism and globalization These essays address topics such as the array of competing nationalisms in Europe Indian secularism versus Hindu communalism the populist rhetoric tinged with misogyny or homophobia in the United States racial religious or ethnic others who are sidelined in political appeals to dominant native voices and the increasing economic chasm between a rich and poor More broadly these essays inquire into themes such as how national identity and various conceptions of masculinity are woven together how dominant native cultures interact with migrant and colonized cultures to explore insider outsider paradigms and identity politics and how generic and cultural boundaries are repeatedly crossed in postcolonial detective fiction *Transnational Cinema and Ideology* Milja Radovic, 2014-06-13 Increasingly as the production distribution and audience of films cross national boundaries film scholars have begun to think in terms of transnational rather than national cinema This book is positioned within the emerging field of transnational cinema and offers a groundbreaking study of the relationship between transnational cinema and ideology The book focuses in particular on the complex ways in which religion identity and cultural myths interact in specific cinematic representations of ideology Author Milja Radovic approaches the selected films as national regional products and then moves on to comparative analysis and discussion of their transnational aspects This book also addresses the question of whether transnationalism reinforces the nation or not one of the possible answers to this question may be given through the exploration of the cinema of national states and its transnational aspects Radovic illustrates the ways in which these issues represented and framed by films are transmitted beyond their nation state borders and local ideologies in which they originated and questions whether therefore one can have an understanding of transnational cinema as a platform for political dialogue **Contesting Citizenship** Anne McNevin, 2011-07-05 Investigating the role of irregular migrants in the transformation of citizenship the author argues that irregular status is an immanent rather than aberrant condition of global capitalism formed by the fast tracked processes of globalization *The New Global Insecurity* Fathali M. Moghaddam, 2010-01-22 A noted conflict expert shows how accelerating globalization is causing dangerous global insecurity that must be met by new security models and policies *The New Global Insecurity How Terrorism Environmental Collapse Economic Inequalities and Resource Shortages Are Changing Our World* explores insecurity arising out of accelerating globalization In this unique and forward thinking work psychologist Fathali M Moghaddam director of the Conflict Studies Program at Georgetown University explains how and why worldwide insecurity is rising and what steps we must take to quell or reverse that insecurity to make the future of the world more peaceful The book first analyzes the elements and roots of global insecurity discussing it in relation to terrorism torture economic instability threatened identity and religious fundamentalism It then puts forward a new model for understanding security

wherein soft security capital serves as the enabling condition for hard security capital Finally the current policies for managing diversity multiculturalism and assimilation are both rejected in favor of an exciting new policy omniculturalism Drawing on his years of study and expertise Moghaddam likewise proposes a new policy for better managing intergroup relations in an insecure age
