Unmaking Waste Sarah Newman,2023-05-26 In Unmaking Waste Sarah Newman asks what happens when there are disagreements about what constitutes waste and what one should do with it both at singular moments in time for example when ideas about waste collide in emerging colonial contexts and across time such as between those who left things behind in the past and the archaeologists who recover them Newman examines ancient Mesoamerican understandings of waste Euro American perceptions of waste in New Spain and early modern European ideals of civility and Christian understandings of good and bad expressed metaphorically through cleanliness and filth These differing perceptions Newman argues demands that we rethink centuries of assumptions imposed on other places times and peoples so long as waste remains a category misunderstood to be common sensical and stable archaeological methods will prove unequal to their task Newman instead proposes anamorphic archaeology an approach that emphasizes the possibility that archaeological objects have multiple physical and conceptual lives **Nuclear Magnetic Resonance** G A Webb,2007-10-31 As a spectroscopic method Nuclear

Magnetic Resonance NMR has seen spectacular growth over the past two decades both as a technique and in its applications Today the applications of NMR span a wide range of scientific disciplines from physics to biology to medicine Each volume of Nuclear Magnetic Resonance comprises a combination of annual and biennial reports which together provide comprehensive of the literature on this topic This Specialist Periodical Report reflects the growing volume of published work involving NMR techniques and applications in particular NMR of natural macromolecules which is covered in two reports NMR of Proteins and Acids and NMR of Carbohydrates Lipids and Membranes For those wanting to become rapidly acquainted with specific

An Analysis of the Economic Torts Hazel Carty, 2010 The economic torts for too long have been under theorized and under explored by academics and the judiciary alike In recent years claimants have exploited the resulting chaos by attempting to use the economic torts in ever more exotic ways This second edition as before attempts to provide practical legal research to both explore the ingredients of all these torts both the general economic torts inducing breach of contract the unlawful means tort intimidation the conspiracy torts and the misrepresentation economic torts deceit malicious falsehood and passing off and their rationales And as before an optimum framework for these torts is suggested However that framework has to take on board the apparent tension within the House of Lords as revealed in the recent decisions in *OBG v Allan* and *Total Network v Revenue* Over 100 years ago the House of Lords in the seminal decision of *Allen v Flood* in theory set the agenda for the modern development of the economic torts The majority in that case adopted an abstentionist approach to liability for intentionally inflicted economic harm so that even where intentional and unjustified economic harm was inflicted liability would not necessarily follow However this clear framework for the torts was obscured by subsequent case law leaving the economic torts in a hopeless muddle by the start of the twenty first century A chance to finally sort out this mess was presented to the House of Lords in 2007 in the shape of three conjoined appeals reported under the name *OBG v Allan* The thrust of the judgments was that a framework for the economic torts was to be established and dicta and decisions that caused problems and incoherence were to be named and shamed Re affirming the abstentionist philosophy of *Allen v Flood* Lord Hoffmann and Nicholls and Baroness Hale in part relied upon the first edition of *An Analysis of the Economic Torts* Lord Hoffmann noting if what I have said does anything to clarify what has been described as an extremely obscure branch of the law much is owing to Hazel Carty's book *An Analysis of the Economic Torts* However within 10 months of the *OBG* decision a differently constituted HL in *Total Network SL v Revenue and Customs Commissioners* undermined this nascent coherence and did so by focusing on the conspiracy torts previously dismissed by some commentators as anomalous or superfluous Distinguishing *OBG* which did not as such analyse the conspiracy torts the House of Lords in *Total Network* may have shifted the general economic torts from the abstentionist to the interventionist track of development Thus it is suggested that conflicting agendas for general economic liability can be discerned in the *OBG* and *Total Network* judgments These agendas are debated against the background of the growing academic debate and a coherent approach suggested As for the misrepresentation torts their potential for development is also discussed and the peril of allowing them to transform into

unfair trading or misappropriation torts is explained As a result the second edition involves a substantial re write of the first edition However the thesis of the author remains that a coherent framework for these torts can best be constructed based on a narrow remit for the common law

Intelligent Town Louise Miskell,2019-09-15 This is the first full length study of Swansea s urban development from the late eighteenth to the late nineteenth century It tells the little known story of how Swansea gained an unrivalled position of influence as an urban centre which led it briefly to claim to be the metropolis of Wales and how it then lost this status in the face of rapid urban development elsewhere in Wales As such it provides an important new perspective on Welsh urban history in which the role of Cardiff Merthyr Tydfil and even Bristol are better known as towns of influence in Welsh urban life It also offers an analysis of how Swansea s experience of urbanisation fits into the wider picture of British urban history

The Motif of Hospitality in Theological Education Davina Hui Leng Soh,2016-12-14 These are exciting times in theological education as old models are being reassessed and teachers and schools are looking for guidance on how best to do the job and how to profitably relate to students in the ministry of teaching Increasingly the motif of hospitality is being used to guide our thinking and practice but it needs a careful assessment if it is to be of maximum use to theological education today This book provides an integrated biblical theological and educational rationale to inform theological educators of the place of hospitality in enhancing their quest to create more effective learning environments for the holistic formation of students Dr Davina Soh explores key elements of hospitality such as inclusion presence care and reciprocity which when combined can deliver the best possible educational experience for theological students and transform an entire institution

Global Fissures Clara A. B. Joseph,Janet Wilson,2006 Contains analyses of literary texts written by among others Chinua Achebe Samuel Beckett James Joyce Michael Ondaatje George Orwell Salman Rushdie and Edward Said

Science and Praxis Pietro Daniel Omodeo,Senthil Babu D.,Claus Zittel,2025-07-23 This volume addresses questions in the history of science and allied disciplines about the inseparable relation between science and politics Cases presented in the book shed light on the political conditions orientation and the consequences of science Together they articulate frames of inquiry in historical political epistemology Situated in the early modern historical context the volume draws attention to different political factors which shaped scientific practices and their ideologies Given the contested historiographies of the scientific revolution the critical approach of this volume offers an invitation for further historical inquiries on the practices and politics of science
