The response to the call for papers for ICIAR 2005 was encouraging. From 295 full papers submitted 153 were orally accepted 80 oral presentations and 73 posters. The review process was carried out by the Program Committee members and other reviewers. All are experts in various image analysis and recognition areas. Each paper was reviewed by at least two reviewers and also checked by the conference co-chairs. The high quality of the papers in these proceedings is attributed first to the authors and second to the quality of the reviews provided by the experts. We would like to thank the authors for responding to our call and we wholeheartedly thank the reviewers for their excellent work and for their timely response. It is this collective effort that resulted in the strong conference program and high quality proceedings in your hands.
