YouthXchange training kit on responsible consumption for Africa Martinez-Roca, Carme, Thoresen, Victoria, UNEP, 2017-12-31 *How to Read Like an Anti-Fascist* Annette Wannamaker, 2025-06-03 On the urgent need to promote critical reading skills amidst rising authoritarianism Children's author Philip Pullman famously said that There are some themes some subjects too large for adult fiction they can only be dealt with adequately in a children's book While the recent rise of fascist ideology in the United States might seem a subject too large and adult to be dealt with in literature for children or teens Annette Wannamaker proposes in *How to Read Like an Anti Fascist* that there are books aimed at future generations which critique and counter fascist propaganda and mythmaking Works of literature can reflect fascist ideology and promote it as well but Wannamaker proposes that some books also offer tools for understanding it Books written for beginners can introduce readers to complex concepts break big ideas into manageable parts and teach readers how to read the world outside of the book Antifascist books are ones that analyze fascistic rhetoric and storytelling educate about America's long history of authoritarianism and highlight various facets of fascism such as scapegoating others and reasserting patriarchal power From *The Emperor's New Clothes* and the tales of Superman to Mildred Taylor's *Roll of Thunder Hear My Cry* the 1619 Project and contemporary works such as *All Boys Aren't Blue* and *Donald Builds the Wall* Wannamaker shows how the ethos of authoritarianism is characterized by a strict hierarchy that places children at its very bottom In doing so she argues convincingly that books written for young people can provide a particular view from the bottom a perspective well suited to interrogating systems of power *The Mortality of Annuitants, 1900-1920* Sir William Palin Elderton, H. J. P. Oakley, 1924 *Statistical Abstract, India*, 2000 *Statistical Abstract of the Indian Union* India. Central Statistical Organisation, 2000 *Responsible Living* Victoria W. Thoresen, Declan Doyle, Jorgen Klein, Robert J. Didham, 2015-02-04 Focusing on the challenges of the transition to responsible sustainable lifestyles this book examines developments over the last decade in relation to the creation of awareness of consumer citizenship civic involvement and environmental stewardship research projects and publications on education for responsible living the creation and implementation of relevant teaching methods and materials policies on education for sustainable consumption and lifestyles global processes for education on sustainable development The articles deal with topics related to policy support institutional approaches educators young people and local communities They draw attention to successful initiatives and reflect upon what still needs to be done The book also looks at the roles that central actors such as PERL The Partnership for Education and research about Responsible Living play in this process *Africa* United Nations Environment Programme, 2008 This stunning 400 page Atlas is a unique and powerful publication which brings to light stories of environmental change at more than 100 locations spread across every country in Africa There are more than 300 satellite images 300 ground photographs and 150 maps along with informative graphs and charts that give a vivid visual portrayal of Africa and its changing

environment that provide scientific evidence of the impact that natural and human activities have had on the continent's environment over the past several decades.
