International Financial Statistics , August 2017 International Monetary Fund. Statistics Dept.,2017-07-31 This paper discusses currencies relative importance in international trade and finance the weights are based on the value of the exports of goods and services of the members issuing these currencies and the balances of their currencies officially held by members of the IMF From January 1981 to December 1985 the currencies and currency weights of the five members having the largest exports of goods and services during 1975 1979 were the US dollar 42 percent deutsche mark 19 percent French franc Japanese yen and pound sterling 13 percent each From January 1986 through December 1990 reflecting the 1980 1984 the weights had changed to US dollar 42 percent deutsche mark 19 percent Japanese yen 15 percent French franc and pound sterling 12 percent each From January 1991 to December 1995 reflecting the years 1985 1989 the weights were US dollar 40 percent deutsche mark 21 percent Japanese yen 17 percent French franc and pound sterling 11 percent each International Financial Statistics, December 2017 International Monetary Fund. Statistics Dept.,2017-12-04 This paper describes the country euro area and world tables that provide measures of effective exchange rates compiled by the IMF s Research Department Statistics Department and area departments A nominal effective exchange rate index represents the ratio of an index of a currency s period average exchange rate to a weighted geometric average of exchange rates for the currencies of selected countries and the euro area A real effective exchange rate index represents a nominal effective exchange rate index adjusted for relative movements in national price or cost indicators of the home country selected countries and the euro area For ease of comparison between the nominal effective exchange rate index and the real effective exchange rate index the average exchange rate expressed in terms of US dollars per unit of each of the national currencies is also given in the index form base 2010 100 **International Financial Statistics, September 2017** International Monetary Fund. Statistics Dept.,2017-08-31 This paper discusses the complete set of updated country notes is accessible from the IFS Online Service internet site in the Metadata tab and appear on the DVD ROM edition of IFS

under the Publications tab A print edition of Country Notes may be ordered separately by subscribers of the DVD ROM The sources for the unit labor cost data are the OECD Analytical Database quarterly unit labor cost in manufacturing and IMF staff annual data interpolated into higher frequencies Euro area unit labor cost is used as a proxy for a number of economies for which data are unavailable Cyprus Czech Republic Estonia Latvia Lithuania Malta and Slovak Republic For manufactured goods trade by type of good and market is distinguished in the database For primary products the weights assigned depend principally on a country's role as a global supplier or buyer of the product Trade in crude petroleum petroleum and other energy products are excluded For some countries that heavily depend on tourism bilateral exports of tourism services averaged over 2004-2006 are also included in calculating the competitiveness weights International Financial Statistics, October 2017 International Monetary Fund. Statistics Dept., 2017-09-29 This paper discusses that for ease of comparison between the nominal effective exchange rate index and the real effective exchange rate index the average exchange rate expressed in terms of US dollars per unit of each of the national currencies In both cases an increase in the index reflects an appreciation Because of certain data related limits particularly where IMF estimates have been used data users need to exercise considerable caution in interpreting movements in nominal effective and real effective exchange rates The IMF publishes calculated effective exchange rates data only for countries that have given their approval Similar indices that are calculated by country authorities may contain different results For manufactured goods trade by type of good and market is distinguished in the database For primary products the weights assigned depend principally on a country's role as a global supplier or buyer of the product **International Financial Statistics, January 2018** International Monetary Fund. Statistics Dept., 2017-12-28 This paper discusses that for countries that are members of the euro area the exchange rates shown are expressed in national currency units per SDR or per US dollar through 1998 and in euros per SDR or per US dollar thereafter Data on members IMF accounts are presented in the Fund Position section in the country tables and in four world tables Terms and concepts of IMF accounts and the time series in the country and world tables are explained below When a country joins the IMF it is assigned a quota that fits into the structure of existing quotas Quotas are considered in light of the member's economic characteristics and take into account quotas of similar countries The size of the member's quota determines among other things the member's voting power the size of its potential access to IMF resources and its share in allocations of SDRs Local Area Personal Income, 1978 **Exploring the Handling of Critical Work Practices in Rapid Change Contexts** Ulrika Harlin, 2024-07-01 The accelerating pace of change in our society requires organisations to efficiently manage day to day operations while simultaneously innovating and developing new concepts for the future all within an environment of rapidly evolving circumstances Specifically organisations must quickly be able to handle the work practices that are critical to organisational development and this thesis focuses on the handling of these practices Critical work practices CWP are here defined as operational management practices that are quickly initiated or

adjusted either scaled up or down in response to new developmental needs or emerging acute situations Commonly there are limitations to CWP ingraind in previous structures methods or knowledge The thesis aims to explore the handling of CWP in rapidly changing contexts and how this handling is enabled or constrained by the influencing organisational factors of active ownership stakeholder collaboration and developmental learning The empirical foundation of the thesis builds on an interactive research approach It utilises data from case studies in two rapid change contexts an industrial startup in the green transformation and organisations response during the initial stages of the COVID 19 pandemic Results from the studies show that organisations demonstrated agility by mobilising resources and fostering collaboration in novel ways guided by overarching objectives that transcended local concerns Identified CWPs were characterised by their innovative nature and various degrees of newness and time constraints which necessitated new approaches and provided opportunities for adaptive and developmental learning Three conclusions can be drawn from the analysis in the thesis first disruptive changes trigger entrepreneurship and innovations through enhanced space of action and seamless cross collaborations Second the interaction between intermediaries managers and employees fosters a holistic understanding and proactivity Third rapid change contexts stress test organisations where strengths constraints and new opportunities become visualised Theoretically the thesis contributes with a conceptual model highlighting essential factors of organisational conditions and their interconnections An additional contribution is made in introducing the concept of CWPs and identifying prerequisites for handling different forms of such practices in rapid change contexts The practical implications of this research include that different types of CWPs are a source that can be utilised for continuous improvements supporting organisations ability to handle increasing uncertainties Moreover the conceptual model provides analytical support of work practices that intend to contribute to transitions related to development areas such as a circular economy electrification digitalisation and resilience
