Models of Protection Against HIV/SIV Gianfranco Pancino, Guido Silvestri, Keith Fowke, 2011-11-02 A successful vaccine for the prevention and or immunotherapy against HIV AIDS is one of the prominent challenges of the 21st century To date all human vaccine trials against this virus disease have resulted in failure or at best have shown very low efficacy The scientific community dealing with HIV AIDS has unanimously proposed a focus on basic science with the intention of identifying correlates of protection that can serve as guides in developing and evaluating vaccine preparation However Nature seems to have already found several ways of dealing with infections by HIV and related primate lentiviruses either by resisting infection or once infected avoiding immune damage and immunodeficiency Models of Protection Against HIV SIV will allow for an in depth reflection on the perspectives for vaccine and therapy research derived from important recent studies It will be authored by some of the most well known specialists in the field of HIV resistance protection including F Barr Sinoussi 2008 Nobel Prize for Medicine winner B Walker S Rowland Jones A Telenti M Lederman and F Plummer This book is structured in a unique way looking at three models of resistance protection separately and then comparing the models against one another to provide its readership with a detailed examination of the research that is most predominant in the search for a vaccine This structure presents the information in an easy to understand format and gives the book a cross discipline appeal an important reference for those in the scientific community medical care public health and academia alike Provides extensive descriptions and comparisons on the different models of protection against HIV AIDS Comprehensive writing and illustrations Contributors are among the most eminent specialists in the field

A Peddler's Tale Kristine Wirts, 2024-03-13 A Peddler's Tale tells the story of Jean Giraud a Protestant merchant peddler who lived in the French and Swiss Alps in the late seventeenth century Drawing on livres de raison account books municipal parish and consistory records and death inventories Wirts has crafted a compelling microhistory about a Huguenot individual and the communities he shared in the wake of the Revocation of the Edict of Nantes in 1685 which made Catholicism the only recognized religion in France Wirts narrates the historical events in Giraud's French village of La Grave during the revocation providing a detailed account of the persecution of his fellow church members and their flight across the Alps Giraud too made the difficult trip to Switzerland Like most refugees Giraud faced numerous challenges when he arrived at his final destination of Vevey in January 1687 Not all were greeted with open arms Huguenots without social connections or financial resources frequently were forced to move on those allowed to stay worked diligently to reestablish their lives and fortunes Once settled in Vevey Giraud and his extended family supported themselves by micro lending and peddling books watch parts and lace products the latter two of growing importance to the proto industrial economy of western Switzerland In contrast to past studies on the Huguenot diaspora that tend to depict those fleeing France in heroic terms A Peddler's Tale exposes the harsh economic realities many refugees faced as well as the importance of social connections and financial resources in securing

passage and sanctuary Wirts contends that although a socially diverse group Huguenot refugees who succeeded in obtaining permanent residency in Vevey shared one important element many derived their economic livelihood from new kinds of economic ties and social bonds that emerged with the rise of capitalist markets Commercial networks such as Giraud s helped preserve religious community by extending credit and employment to Huguenot refugees producing or working for the market Huguenot refugees sought the social approval of their Swiss neighbors through strategies of marriage and godparenthood and by conforming to Vevey s consistory regulations A Peddler s Tale illustrates the role and power of informal networks in sustaining and fostering early modern communities
