Stuckey, 2008-08-28 This volume contains the proceedings of the 14th International Conference on Principles and Practice of Constraint Programming CP 2008 held in Sydney Australia September 14-18 2008. The conference was held in conjunction with the International Conference on Automated Planning and Scheduling ICAPS 2008 and the International Conference on Knowledge Representation and Reasoning KR 2008. Information about the conference can be found at the website <http://www.unimelb.edu.au/cp2008>. Held annually, the CP conference series is the premier international conference on constraint programming. The conference focuses on all aspects of computing with constraints. The CP conference series is organized by the Association for Constraint Programming ACP. Information about the conferences in the series can be found on the Web at <http://www.cs.ualberta.ca/aicp/>. Information about ACP can be found at <http://www.a4cp.org>. CP 2008 included two calls for contributions: a call for research papers describing novel contributions in the field and a call for application papers describing applications of constraint technology. For the first time, authors could directly submit short papers for consideration by the committee. The research track received 84 long submissions and 21 short submissions, and the application track received 15 long submissions. Each paper received at least three reviews, which the authors had the opportunity to see and to react to before the papers and their reviews were discussed extensively by the members of the Program Committee.      **World Trade Information Service**, 1955      **Publications Related to Payments Under the State and Local Fiscal Assistance Act of 1972 (revenue Sharing)** United States.
