The contributions shed light on how reading Weil can inform our understanding of Wittgenstein and vice versa. The chapters cover different aspects of Weil's and Wittgenstein's philosophy including their religious thought and their views on ethics and metaphilosophy. They address the following questions: How does Wittgenstein's struggle with religious belief match up with Simone Weil's own struggle with organised belief? What is the role of the mystical and supernatural in their works? How much impact has various posthumous editorial decisions had on the shaping of Weil's and Wittgenstein's thought? Is there any significance to similarities in Weil's and Wittgenstein's written and philosophical styles? How do Weil and Wittgenstein conceive of the self and its role in philosophical thinking? What role does belief play in Weil's and Wittgenstein's respective philosophical works?
