## 25350389:

Movement Or Moment? Patrick Claffey, Joe Egan, 2009 This collection of essays was written to mark the fortieth anniversary of the Second General Conference of Latin American Bishops which convened at Medell n Colombia in 1968 Inspired by the Second Vatican Council and seeking to implement its vision the bishops viewed the occasion as a decisive one for Latin America which they saw as standing on the threshold of a new epoch in the history of our continent It appears to have been a time full of zeal for emancipation of liberation from every form of servitude of personal maturity and of collective integration Forty years later however it is appropriate to remember the event and to review the significance of liberation theology in light of all that has happened during the intervening period The colloquium at the Milltown Institute Dublin which led to this book sought to do precisely that to establish where liberation theology now stands by questioning whether it really is a significant theological and ecclesial movement or merely a moment whose time has passed and to investigate its enduring legacy
