Evidentiality in Interaction Janis Nuckolls, Lev Michael, 2014-06-15 In recent decades linguists have significantly advanced our understanding of the grammatical properties of evidentials but their social and interactional properties and uses have received less attention This volume originally published as a special issue of *Pragmatics and Society* issue 3 2 2012 draws together complementary perspectives on the social and interactional life of evidentiality drawing on data from diverse languages including Albanian English Garrwa Pama Nyungan Australia Huamal es Quechua Quechuan Peru Nanti Arawak Peru and Pastaza Quichua Quechuan Ecuador The language specific studies in this volume are all based on the close analysis of discourse or communicative interaction and examine both evidential systems of varying degrees of grammaticalization and evidential strategies present in languages without grammaticalized evidentials The analyses presented draw on conversational analysis ethnography of communication ethnopoetics pragmatics and theories of deixis and indexicality and will be of interest to students of evidentiality in a variety of analytical traditions Epistemic Modality Paola Pietrandrea, 2005-01-01 This volume offers an original theoretical and methodological approach to the hotly debated issue of epistemic modality The analysis is conducted in a rigorous typological frame developed after a careful consideration of a wealth of cross linguistic data and focuses on Italian a language often disregarded in comparative analyses The complexity of the Italian epistemic system provides relevant information that will undoubtedly foster a better understanding of the topic A new definition of epistemic modality is proposed on a functional basis and the structure of the Italian epistemic system is closely described The morpho syntactic characteristics of Italian epistemic forms are regarded as the result of the dialectic between universal functional pressures and peculiar system resistances Shaped by the system epistemic modality emerges as an intrinsically linguistic category which cannot be downsized to a mere conceptual notion as other approaches would propose Italy Alastair Sawday, Florence Oldfield, 2010 400 irresistible excuses for going to Italy stay in a medieval hamlet in Le Marche a B B at the foot of Mount Etna you can even book an entire village in Tuscany With places from 43 up to 5000 a night in the plush hotels of Rome there is something for all budgets
