**Assessment** Iain Kearton,Sarah Bracking,Stuart Weir,David Beetham,2021-11-15 The International IDEA Handbook on  
Democracy Assessment is a robust and sensitive guide to assessing the quality of democracy and human rights in any country  
around the world The Handbook introduces an easy to use and universal methodology for assessing the condition of  
democracy in any country or its progress in democratisation that has been developed in a three year action programme at  
IDEA the inter governmental Institute for Democracy and Electoral Assistance in Sweden The Handbook provides a means to  
measure systematically the full range of values institutions and issues relating to modern democracy that is sensitive to the  
underlying principles and democracy and the differences between democracies themselves It is therefore both universal in  
application and capable of responding to particular aspects of any one nation s democratic arrangements The animating  
principle of the Handbook is that only citizens of a nation themselves are qualified to assess the quality of their own  
democratic arrangements Thus it provides a self help guide which gives academics lawyers political practitioners journalists  
and interested citizens the tools to assess the state of their democracy or any key aspects of their democracy The Handbook  
is above all a practical working document that draws on the actual experience of assessing democracy in different countries  
comparative knowledge and research and democratic principles and practice It gives a step by step guide to the purposes  
and methods of democracy assessment who to involve how to use the research tools how to validate the findings what  
standards of practice to adopt and how to present and publicise a finished assessment It contains extracts from completed  
assessments guidance on the use of qualitative and quantitative data examples of codes of democratic practice and  
international and regional standards and a vast list of accessible data sources The methodology was created by a team of  
political scientists assembled from all regions of the world by International IDEA and has been tried and tested in a variety of  
countries including Bangladesh El Salvador Italy Kenya Malawi New Zealand Peru South Korea and the United Kingdom  
International organisations like the World Bank and UNECA are adapting it for in country use The four main authors and

editors have been directly involved from the inception of the project in developing and refining the methodology and participating in and advising on the nine country studies that form the essential practical core of experience on which this invaluable Handbook is based
