Mitchell,1979 **Estatística industrial** ,1952 *The Ink of Melancholy* André Bleikasten,1990-06-22 The period from the late 1920s to the early 1940s was in Faulkner s career one of prodigious fertility and the creative outburst on which it opens from *The Sound and the Fury* 1929 through *As I Lay Dying* 1930 and *Sanctuary* 1931 to *Light in August* 1932 touches indeed on the miraculous It is the four children of this miracle that Andr Bleikasten re examines and re evaluates in his substantial new book on Faulkner But rather than approach Faulkner s fiction from a priori theoretical assumptions and process it through some prefabricated grid he has concentrated on the text themselves on the motivations and circumstances of their composition on the rich array of their themes structures textures on their various narrative protocols and the endless interplay of their tropes and codes on their points of emphasis and repetition as well as their rifts and gaps Brilliant in its thought and argument drawing eclectically on the resources of philosophy psychoanalysis anthropology and other disciplines and using modern critical theory without ever being arcane or trendy Bleikasten s book is a highly personal performance and one of the most insightful and stimulating studies that Faulkner has received □□□□ ,1992 **Fiction's Inexhaustible Voice** Stephen M. Ross,1989 William Faulkner recognized voice as one of the most distinctive and powerful elements in fiction when he delivered his Nobel Prize acceptance speech describing the last sound at the end of the world as man s puny inexhaustible voice still talking As a testimonial of an artist s faith in his art the speech raised the value of voice to its highest reach for man as one of the props

the pillars to help him endure and prevail In *Fiction's Inexhaustible Voice* Stephen Ross explores the nature of voice in William Faulkner's fiction by examining the various modes of speech and writing that his texts employ Beginning with the proposition that voice is deeply involved in the experience of reading Faulkner Ross uses theoretically grounded notions of voice to propose new ways of explaining how Faulkner's novels and stories express meaning showing how Faulkner used the affective power of voice to induce the reader to forget the silent and originless nature of written fiction Ross departs from previous Faulkner criticism by proceeding not text by text or chronologically but by construction a workable taxonomy which defines the types of voice in Faulkner's fiction phenomenal voice a depicted event or object within the represented fictional world mimetic voice the illusion that a person is speaking psychic voice one heard only in the mind and overheard only through fiction's omniscience and oratorical voice an overtly intertextual voice which derives from a discursive practice Southern oratory recognizable outside the boundaries of any Faulkner text and identifiable as part of Faulkner's biographical and regional heritage In Faulkner's own experience listening was important As he once confided to Malcolm Cowley I listen to the voices and when I put down what the voices say it's right In *Fiction's Inexhaustible Voice* Ross conducts a careful analysis of this fundamental source of power in Faulkner's fiction concluding that the preponderance of voice imagery represented talking verbalized thought and oratorical rhetoric and posturing makes the novels and stories fundamentally vocal They derive their energy from the play of voices on the imaginative field of written language *New Essays on The Sound and the Fury* Noel Polk, 1993-10-29 While it met with only limited success when published in 1929 this novel has since become one of the most popular of Faulkner's works This study includes critical responses from the time of its publication to the present day as well as contemporary reassessments from a variety of critical perspectives *The Play of Faulkner's Language* John T. Matthews, 1982 **The Sound and the Fury** John T. Matthews, 1991 The book explains the novel's connection with the American South of the 1920s illuminating its modernist style and exploring its autobiographical elements After surveying criticism on the novel the book examines the theme that dominates the work the changes occurring in Southern race class and gender definitions
