Annual Report of the Chief of Engineers, U.S. Army, on Civil Works Activities United States. Army. Corps of Engineers, 1956 **The Billionaire's Muse** M. S. Parker, 2017-03-11 When newly hired editor's assistant Tanya Lacey reaches out to the unknown author of a steamy new erotic romance novel she's stunned to learn that the author is not only a man but also a handsome billionaire Wealthy CEO Erik Sanders has a secret Whenever he's not managing his billion dollar business he writes erotic romance novels but it's not until he meets the charmingly innocent Tanya that he finds out what inspiration truly means Soon she becomes his muse but is it enough Will work and aspiration come in way of true happiness Don't miss *The Billionaire's Muse* M S Parker's latest sexy romance novel **Barger Gulch** Todd A. Surovell, 2022-03-22 At the end of the last Ice Age in a valley bottom in the Rocky Mountains a group of bison hunters overwintered Through the analysis of more than 75 000 pieces of chipped stone archaeologist Todd A Surovell is able to provide one of the most detailed looks yet at the lifeways of hunter gatherers from 12 800 years ago The best archaeological sites are those that present problems and inspire research writes Surovell From the start the Folsom site called Barger Gulch Locality B was one of those sites it was a problem rich environment Many Folsom sites are sparse scatters of stone and bone a reflection of a mobile lifestyle that leaves little archaeological materials The people at Barger Gulch left behind tens of thousands of pieces of chipped stone they appeared to have spent quite a bit of time there in comparison to other places they inhabited Summarizing findings from nine seasons of excavations Surovell explains that the site represents a congregation of mobile hunter gatherers who spent winter along Barger Gulch a tributary of the Colorado River Surovell uses spatial patterns in chipped stone to infer the locations of hearths and house features He examines the organization of household interiors and discusses differential use of interior and exterior spaces Data allow inference about the people who lived at the site including aspects of the identity of flintknappers and household versus group mobility The site shows evidence of a Paleoindian camp circle child flintknapping household production of weaponry and the fission fusion dynamics of group composition that is typical of nomadic peoples Barger Gulch provides key findings on Paleoindian technological variation and spatial and social organization Baseball's All-Time Best Hitters Michael J. Schell, 2013-12-03 Tony Gwynn is the greatest hitter in the history of baseball That's the conclusion of this engaging and provocative analysis of baseball's all time best hitters Michael Schell challenges the traditional list of all time hitters which places Ty Cobb first Gwynn 16th and includes just 8 players whose prime came after 1960 Schell argues that the raw batting averages used as the list's basis should be adjusted to take into account that hitters played in different eras with different rules and in different ballparks He makes those adjustments and produces a new list of the best 100 hitters that will spark debate among baseball fans and statisticians everywhere Schell combines the two qualifications essential for a book like this He is a professional statistician applying his skills to cancer research and he has an encyclopedic knowledge of baseball He has wondered how to rank hitters since he was a boy growing

up as a passionate Cincinnati Reds fan Over the years he has analyzed the most important factors including the relative difficulty of hitting in different ballparks the length of hitters careers the talent pool that players are drawn from and changes in the game that raised or lowered major league batting averages the introduction of the designated hitter and changes in the height and location of the pitcher s mound for example Schell s study finally levels the playing field giving new credit to hitters who played in adverse conditions and downgrading others who faced fewer obstacles His final ranking of players differs dramatically from the traditional list Gwynn for example bumps Cobb to 2nd place Rod Carew rises from 28th to 3rd Babe Ruth drops from 9th to 16th and Willie Mays comes from off the list to rank 13th Schell s list also gives relatively more credit to modern players containing 39 whose best days were after 1960 Using a fun conversational style the book presents a feast of stories and statistics about players ballparks and teams all arranged so that calculations can be skipped by general readers but consulted by statisticians eager to follow Schell s methods or introduce their students to such basic concepts as mean histogram standard deviation p value and regression Baseball s All Time Best Hitters will shake up how baseball fans view the greatest heroes of America s national pastime *Middle East Record Volume 2, 1961* Yitzhak Oron,1961
