Politics and Change Louise A. Tilly, Patricia Gurin, 1990-06-21 Women Politics and Change a compendium of twenty three
original essays by social historians political scientists sociologists psychologists and anthropologists examines the political
history of American women over the past one hundred years Taking a broad view of politics the contributors address
voluntarism and collective action women's entry into party politics through suffrage and temperance groups the role of
nonpartisan organizations and pressure politics and the politicization of gender Each chapter provides a telling example of
how American women have behaved politically throughout the twentieth century both in the two great waves of feminist
activism and in less highly mobilized periods The essays are unusually well integrated not only through the introductory
material but through a similarity of form and extensive cross references among them in raising central questions about the
forms bases and issues of women's politics as well as change and continuity over time Tilly Gurin and the individual scholars
included in this collection have provided us with a survey of the latest research and an agenda for the future Contemporary
