seamless historical narrative of American children's literature and gender from 1850 until 1923. He follows his insightful literary analysis with chapters on sympathy and motherhood, two themes central to both American and children's literature, and concludes with a discussion of contemporary ideas about discipline, abuse, and gender. *Disciplining Girls* writes an important chapter in the history of American women's and children's literature, enriching previous work about the history of discipline in America.

Intergenerational Solidarity in Children's Literature and Film Justyna Deszcz-Tryhubczak, Zoe Jaques, 2021-02-01. Winner of the 2023 Edited Book Award from the International Research Society for Children's Literature. Contributions by Aneesh Barai, Clémentine Beauvais, Justyna Deszcz-Tryhubczak, Terri Doughty, Aneta Dybska, Blanka Grzegorzczak, Zoe Jaques, Vanessa Joosen, Maria Nikolajeva, Marek Oziewicz, Ashley N. Reese, Malini Roy, Sabine Steels, Lucy Stone, Björn Sundmark, Michelle Superle, Nozomi Uematsu, Anastasia Ulanowicz, Helma van Lierop, Debrauwer, and Jean Webb. Intergenerational solidarity is a vital element of societal relationships that ensures survival of humanity. It connects generations, fostering transfer of common values, cumulative knowledge, experience, and culture, essential to human development. In the face of global aging, changing family structures, family separations, economic insecurity, and political trends pitting young and old against each other, intergenerational solidarity is now more than ever a pressing need. *Intergenerational Solidarity in Children's Literature and Film* argues that productions for young audiences can stimulate intellectual and emotional connections between generations by representing intergenerational solidarity. For example, one essayist focuses on Disney films which have shown a long-time commitment to variously highlighting and then conservatively healing fissures between generations. However, Disney Pixar's *Up* and *Coco* instead portray intergenerational alliances: young collaborating with old, the living working alongside the dead, as necessary to achieving goals. The collection also testifies to the cultural, social, and political significance of children's culture in the development of generational intelligence and empathy towards age others, and positions the field of children's literature studies as a site of intergenerational solidarity, opening possibilities for a new socially consequential inquiry into the culture of childhood.

Earthquake Insurance in Turkey, 2006-01-01. The persistent potential for large-scale natural disasters has become a real concern for the Turkish government since the late 1990s, which ultimately led to the establishment of the Turkish Catastrophe Insurance Pool (TCIP). Among the main rationales for the creation of the TCIP were a grave government fiscal exposure to natural disasters and a disproportionately low level of catastrophe insurance penetration for such a disaster-prone country. Since the commencement of this program in 2000, the TCIP has provided coverage to more than 2 million households, being by far the largest insurance program in the country. In four years, the TCIP has managed to become one of the most trusted brand names in the Turkish insurance industry and one of the largest catastrophe insurance pools in the world. Its success has also brought an international recognition, inspiring more than a dozen of countries worldwide. The TCIP experience has also been a watershed for the World Bank, as it has led to a rethinking of the roles of ex ante risk management relative to ex post donor

support This book presents the main technical imperatives and challenges in the development and the implementation of the TCIP and shows how a public private partnership may be the way forward in the financing of natural disasters If offers valuable advise and guidelines to policymakers involved in the development of catastrophe insurance programs

Never Saw It Coming Karen A. Cerulo,2008-09-15 People especially Americans are by and large optimists They re much better at imagining best case scenarios I could win the lottery than worst case scenarios A hurricane could destroy my neighborhood This is true not just of their approach to imagining the future but of their

memories as well people are better able to describe the best moments of their lives than they are the worst Though there are psychological reasons for this phenomenon Karen A Cerulo in *Never Saw It Coming* considers instead the role of society in fostering this attitude What kinds of communities develop this pattern of thought which do not and what does that say about human ability to evaluate possible outcomes of decisions and events Cerulo takes readers to diverse realms of experience including intimate family relationships key transitions in our lives the places we work and play and the boardrooms of organizations and bureaucracies Using interviews surveys artistic and fictional accounts media reports historical data and official records she illuminates one of the most common yet least studied of human traits a blatant disregard for worst case scenarios *Never Saw It Coming* therefore will be crucial to anyone who wants to understand human attempts to picture or plan the future In *Never Saw It Coming* Karen Cerulo argues that in American society there is a positive symmetry a tendency to focus on and exaggerate the best the winner the most optimistic outcome and outlook Thus the conceptions of the worst are underdeveloped and elided Naturally as she masterfully outlines there are dramatic consequences to this characterological inability to imagine and prepare for the worst as the failure to heed memos leading up to both the 9 11 and NASA Challenger disasters for instance so painfully reminded us Robin Wagner Pacifici Swarthmore College Katrina 9 11 and the War in Iraq all demonstrate the costliness of failing to anticipate worst case scenarios *Never Saw It Coming* explains why it is so hard to do so adaptive behavior hard wired into human cognition is complemented and reinforced by cultural practices which are in turn institutionalized in the rules and structures of formal organizations But Karen Cerulo doesn't just diagnose the problem she uses case studies of settings in which people effectively anticipate and deal with potential disaster to describe structural solutions to the chronic dilemmas she describes so well *Never Saw It Coming* is a powerful

Victoria Woodhull's Sexual Revolution Amanda Frisken, 2004-05-10 Annotation Frisken examines the life social campaigning of the flamboyant Victoria Woodhull the first woman to run for the US presidency a leading advocate for women's rights Woodhull used political theatrics to bring the subject of female sexuality before a reluctant American public *The Influence Machine* Alyssa Katz, 2015-06-23 An illuminating history and groundbreaking investigation tracing how a single trade organization turned itself into the most dangerous political weapon in America When Americans hear the words Chamber of Commerce many still think of the local business associations that spruce up Main Streets and sponsor Little League teams around the country But the United States Chamber of Commerce is a different animal altogether The Chamber was originally founded to give big business a voice during the long and now almost inconceivable period in American history that saw the rise of workers rights consumer protections and environmental awareness as national priorities But over time

driven by an antigovernment ideology and its desire for financial and political power the Chamber metastasized into a fighting force designed to protect the worst excesses of American industry The Chamber through its veiled corporate sponsors can take credit for some of the most disturbing trends in American life the reversal of environmental protections the destruction of unions and worker protections the rise of virulent antigovernment ideology the enlarged role of money in campaigns and the creation of astroturf movements as cover for a corporate agenda Through its propaganda lobbying and campaign cash the Chamber has created a right wing monster that even it struggles to control a conservative movement that is destabilizing American democracy as never before The Influence Machine tells this history as a series of gripping narratives that take us into the backrooms of Washington where the battles over how our country is run and regulated are fought and then out into the world where we see how the Chamber's campaigns play out in real lives In the end Alyssa Katz reveals the hidden weaknesses of this seeming juggernaut and shows how its antidemocratic agenda can be reversed Praise for The Influence Machine Important and probing a valuable and a sobering contribution to the study of power in American society Katz has assembled a work of synthesis and insight The chamber has she argues effectively countered the influence of labor unions and contributed to the widening economic divide in American society Those points are made forcefully and backed up impressively Los Angeles Times An urgent look at the political assault weapon that is transforming the country Katz does invaluable work in tracing how the U S Chamber of Commerce has been a relentless engine for pressing a business of enterprise unfettered by government An eye opening maddening read Kirkus Reviews With clarity and verve but without polemic investigative journalist Katz describes the U S Chamber of Commerce's evolution into a many armed behemoth She illustrates with several examples of how the organization has managed to influence courts strong arm Congress cripple federal agencies and sway the public with voter education ads and more recently it has exported cutthroat American business practices abroad Publishers Weekly
