with cold precision Adam first meets Pippa as she is perched atop a ladder changing the wifi access point in his office. Angered at her presence on the cusp of an important business meeting with potential partners from Beijing his rude behavior further validates his ruthless reputation. When the hired interpreter realizes the men speak Cantonese and not Mandarin Pippa shocks everyone in the room when she steps off her ladder and greets the two representatives in flawless Cantonese. Pippa then privately informs Adam that all is not as it seems with the men who have been sent to represent The Hu Wang Company. Sons of the founders they have launched a campaign of deceit being completely fluent in Mandarin Cantonese and English. Pippa warns Adam to be cautious as he conducts himself around them since they fully understand everything that is being said. Intrigued by her language abilities Adam sees her potential aiding his foreign affairs and offers her a lucrative position as his official interpreter and personal assistant. Adam soon learns however that Pippa is more than just a low level IT employee. The daughter of an United States ambassador she has lived abroad the majority of her life and not only adopted the hobby of collecting languages but is also gifted in the art of diplomacy. Philippa's vivacious nature and innate love for people however is in direct antithesis to Adam's brutal and surly demeanor. As time passes however Adam witnesses the effect Pippa's presence has on everyone that crosses her path: Cynthia his administrative assistant, James his personal driver, Charlene his on again off again paramour, even the second generation Chinese delegates and his own mentally disturbed mother are not immune to Pippa's charms. But when her troubled past is revealed through unexpected circumstances Adam learns that all is not smiles and sunshine for Pippa. And when her beacon begins to fade Adam realizes it is up to him to fan her dwindling spark back into a bright enduring flame. 廖亦男,1975 **Commerce Extérieur Par Produits** ,1986

Structural control offers opportunities to design new structures and to retrofit existing structures by the application of counter forces, smart materials, frictional devices etc instead of just increasing the strength of the structure at greater cost. The Association for the Control of Structures (ACS) is promoting in Europe the development of this new technology in architectural design and infrastructure renewal and rehabilitation. The First European Conference on Structural Control was organized as one of the major initiatives toward this objective. Publisher's website 廖亦男,1994 *Wirtschaft und Statistik* Germany (West).
