Statistical Year-book Quebec Bureau of Statistics, 1919      1990 Census of Population , 1993      人口普查 , 1976      人口 , 1975      Hélio Oiticica Irene V. Small, 2016-02-03 Hélio Oiticica 1937-80 was one of the most brilliant Brazilian artists of the 1960s and 1970s. He was a forerunner of participatory art and his melding of geometric abstraction and bodily engagement has influenced contemporary artists from Cildo Meireles and Ricardo Basbaum to Gabriel Orozco, Dominique Gonzalez Forster and Olafur Eliasson. This book examines Oiticica's impressive works against the backdrop of Brazil's dramatic postwar push for modernization. From Oiticica's late 1950s experiments with painting and color to his mid 1960s wearable Parangol's, Small traces a series of artistic procedures that foreground the activation of the spectator. Analyzing works, propositions, and a wealth of archival material, she shows how Oiticica's practice recast in a sense folded Brazil's utopian vision of progress as well as the legacy of European constructive art. Ultimately, the book argues that the effectiveness of Oiticica's participatory works stems not from a renunciation of art but rather from their ability to produce epistemological models that reimagine the traditional boundaries between art and life.      **Lygia Pape** Museo Nacional Centro de Arte Reina Sofía. Publications Department, Museo Nacional Centro de Arte Reina Sofía (Madrid), 2014. Brazilian artist Lygia Pape was a founding member of the Neo Concrete movement which was dedicated to the inclusion of art into everyday life. Her early work developed out of an interest in European abstraction; however, she and her contemporaries went beyond it.      *Latinx Art* Arlene Dávila, 2020-07-24. In *Latinx Art*, Arlene Dávila draws on numerous interviews with artists, dealers, and curators to explore the problem of visualizing Latinx art and artists. Providing an inside and critical look of the global contemporary art market, Dávila's book is at once an introduction to contemporary Latinx art and a call to decolonize the art worlds and practices that erase and whitewash Latinx artists. Dávila shows the importance of race, class, and nationalism in shaping contemporary art markets while providing a path for scrutinizing art and culture institutions and for diversifying the art world.      *Lygia Pape* Metropolitan Museum of Art (New York, N.Y.). Department of Communications, 2017.      **Modern Art in Eastern Europe** S. A. Mansbach, 1998-09-28. This pioneering and award-winning study provides the world with the first coherent narrative of Eastern European contributions to the modern art movement. Analyzing an enormous range of works from art centers such as Prague, Warsaw, and Budapest, many published here for the first time, S. A. Mansbach shows that any understanding of Modernism is essentially incomplete without the full consideration of vital Eastern European creative output. He argues that Cubism, Expressionism, and Constructivism, along with other great modernist styles, were merged with deeply rooted Eastern European visual traditions. The art that emerged was vital modernist art that expressed the most pressing concerns of the day: political as well as aesthetic. Mansbach examines the critical reaction of the contemporary artistic culture and political state. A major groundbreaking interpretation of Modernism, *Modern Art in Eastern Europe* completes any full assessment of twentieth-century art as well as its history. *Modern Art in Eastern Europe* is the

recipient of the 1997 C I N O A Prize awarded by La Conf d ration Internationale de N gociants en Oeuvres d Art The prize is awarded to defray the costs of publication in order to encourage publishers to produce maunscripts of particular merit and the works of younger art historians

**The Tradition Of Constructivism** Stephen Bann,1990-03-22 With these words the sculptors Naum Gabo and Antoine Pevsner pronounced the official birth of constructivist art the most revolutionary challenging and enigmatic of twentieth century artistic movements Since the time of their Realistic Manifesto constructivism has spread throughout the world opposing personal expressionistic art with abstraction and formal construction In this book Stephen Bann has collected the most important constructivist documents including the writings of El Lissitzky Theo Van Doesburg Hans Richter Victor Vasarely and Charles Biederman many of which have never before been available in English and supplemented them with a critical introduction a chronology of constructivism and an invaluable bibliography of close to four hundred items This volume is illustrated with thirty eight constructivist prints paintings drawings and sculptures some of them are rare and previously unpublished

Constructivism : origins and evolution George Rickey,1995      Constructing an Avant-Garde Sergio B. Martins,2021-08-24 How Brazilian postwar avant garde artists updated modernism in a way that was radically at odds with European and North American art historical narratives Brazilian avant garde artists of the postwar era worked from a fundamental but productive out of jointness They were modernist but distant from modernism Europeans and North Americans may feel a similar displacement when viewing Brazilian avant garde art the unexpected familiarity of the works serves to make them unfamiliar In Constructing an Avant Garde S rgio Martins seizes on this uncanny obliqueness and uses it as the basis for a reconfigured account of the history of Brazil s avant garde His discussion covers not only widely renowned artists and groups including H lio Oiticica Lygia Clark Cildo Meireles and neoconcretism but also important artists and critics who are less well known outside Brazil including M rio Pedrosa Ferreira Gullar Am lcar de Castro Lu s Sacilotto Antonio Dias and Rubens Gerchman Martins argues that artists of Brazil s postwar avant garde updated modernism in a way that was radically at odds with European and North American art historical narratives He describes defining episodes in Brazil s postwar avant garde discussing crucial critical texts including Gullar s Theory of the Non Object a phenomenological account of neoconcrete artworks Oiticica constructivity and Mondrian portraiture self portraiture and identity the nonvisual turn and missed encounters with conceptualism and monochrome manifestos and engagement The Brazilian avant garde s hijacking of modernism Martins shows gained further complexity as artists began to face their international minimalist and conceptualist contemporaries in the 1960s and 1970s Reconfiguring not only art history but their own history Brazilian avant gardists were able to face contemporary challenges from a unique and oblique standpoint

**Brazilian Literature as World Literature** Eduardo F. Coutinho,2018-02-22 Brazilian Literature as World Literature is not only an introduction to

Brazilian literature but also a study of the connections between Brazil's literary production and that of the rest of the world particularly European and North American literatures. It highlights the tension that has always existed in Brazilian literature between the imitation of European models and forms and a yearning for a tradition of its own as well as the attempts by modernist writers to propose possible solutions such as aesthetic cannibalism to overcome this tension. *Subjectivity and Methodology in Art History* Dan Karlholm, Margaretha Rossholm Lagerlöf, 2003

**Learning from Madness** Kaira M. Cabañas, 2018-09-21 Throughout the history of European modernism philosophers and artists have been fascinated by madness. Something different happened in Brazil however with the art of the insane that flourished within the modernist movements there. From the 1920s to the 1960s the direction and creation of art by the mentally ill was actively encouraged by prominent figures in both medicine and art criticism which led to a much wider appreciation among the curators of major institutions of modern art in Brazil where pieces are included in important exhibitions and collections. Kaira M. Cabañas shows that at the center of this advocacy stood such significant proponents as psychiatrist Osório César and Nise da Silveira who championed treatments that included painting and drawing studios and the art critic Mário Pedrosa who penned Gestaltist theses on aesthetic response. Cabañas examines the lasting influence of this unique era of Brazilian modernism and how the afterlife of this outsider art continues to raise important questions. How do we respect the experiences of the mad as their work is viewed through the lens of global art? Why is this art reappearing now that definitions of global contemporary art are being contested? *Learning from Madness* offers an invigorating series of case studies that track the parallels between psychiatric patients' work in Western Europe and its reception by influential artists there to an analogous but altogether distinct situation in Brazil.

*After Constructivism* Brandon Taylor, 2014 When Constructivism emerged shortly after the Russian Revolution its central principles concerned structure and efficiency in the work of art and the nature and properties of materials. In a series of eight essays Brandon Taylor examines the origins of these principles and their extraordinary consequences for the rest of modern art. Even before Constructivism structure was a vital ingredient in Cubist art. After it ideas about facture or the madeness of an art object and about its rational organization became stock in trade for De Stijl in Holland and Art Concret in France and bore decisively on other currents such as Surrealism and abstract art. After 1945 artistic movements including Systems, Kinetic and Minimal Art were all touched by the long reach of Constructivist ideals. Recent art has proved no exception. Taylor shows that casual attitudes to materials even the collapse of Constructivist ideals have helped form the artistic tenor of our times.

**Concrete Invention** Gabriel Pérez-Barreiro, 2013 *Concrete Invention* is focused on the development of geometric abstraction in Latin America. influence of geometric abstraction in the present Resembling an artist's book it includes a fold out piece by artist Jos Le n Cerrillo which forms a play on words with the publication's title      **In the Shadow of Yalta** Piotr Piotrowski,2009 A comprehensive study of art and politics in Eastern Europe between the end of World War II and the fall of Communism this title brings together a wide range of issues including artistic problems movements attitudes and kinds of expression and compares and describes them to create a new art map of the region      *Radical Geometry* Gabriel Pérez-Barriero,2014-11-04 The Colección Patricia Phelps de Cisneros CPPC is the foremost collection of geometric abstract art from Latin America From the 1930s through the 1970s distinct artistic movements emerged in cities of Montevideo Buenos Aires São Paulo Rio de Janeiro and Caracas that explored innovative forms of expression reflecting the new optimism sweeping the continent This volume explores the ways in which the artists of these cities heralded the promise of a bright modern future by creating a commensurate visual language to capture this positive spirit
