Energy Resource Dynamics Patrick Kalasa Kalifungwa, 2025-06-05 Energy sources are forms of potential energy that can be used to perform work An energy resource is anything that can generate heat make objects move and produce electricity Energy sources are categorised as renewable if they constantly and rapidly renew themselves for steady reliable use Any other source of energy is considered non renewable All living organisms constantly take in and release energy The Earth's climate and ecosystems processes are driven primarily by radiant energy from the sun The energy Industry provides the energy required for human civilization to function which it obtains from energy resources such as fossil fuels nuclear fuel renewable energy and geothermal energy The total energy of a system can be subdivided and classified into potential energy kinetic energy or combinations of the two in various ways Kinetic energy is determined by the involvement of an object or the composite motion of the object components while potential energy reflects the potential of an object to have motion generally being based upon the object's position within a field or what is stored within the field itself

The Holocaust and Australian Journalism Fay Anderson, 2024-03-18 This book explores the Australian press reporting of the persecution and genocide of European Jews and the extent to which the news of the Holocaust was known and believed revealed and hidden and acknowledged and minimised Spanning the coverage of Hitler's political ascent in the 1920s through to the Nazis extermination campaign it culminates in the accounts of the trials of Nazi war criminals and the post war transnational migration to Australia of Holocaust survivors to a country far from universally welcoming in its reception of them The book also tells the story of the journalists who reported on these tragic events and the editors who published them along with the political social and cultural context in which they worked in an environment influenced by exclusionary ideas about race and nationality that did not necessarily inspire sympathy for Jews and their trauma This book sheds light on the ethics of reporting human suffering violence and genocide and centrally on the role of the press in shaping Australia's collective memory of the Holocaust It encourages readers to think critically about media power public apathy advocacy and the importance of truth Disturbing evidence of increasing antisemitism in Australia as elsewhere along with continuing Holocaust denial provide an additional urgency to this study
