David I. Owen, Martha A. Morrison

3049413:

Death in Custody Roger A. Mitchell Jr., Jay D. Aronson, 2023-09-05 The United States significantly undercounts the number of people who die in law enforcement custody each year How can we fix this Deaths resulting from interactions with the US criminal legal system are a public health emergency but the scope of this issue is intentionally ignored by the very systems that are supposed to be tracking these fatalities We don't know how many people die in custody each year whether in an encounter with police on the street during transport or while in jails prisons or detention centers In order to make a real difference and address this human rights problem researchers and policy makers need reliable data In *Death in Custody* Roger A Mitchell Jr MD and Jay D Aronson PhD share the stories of individuals who died in custody and chronicle the efforts of activists and journalists to uncover the true scope of deaths in custody From Ida B Wells's enumeration of extrajudicial lynchings more than a century ago to the Washington Post's current effort to count police shootings the work of journalists and independent groups has always been more reliable than the state's official reports Through historical analysis Mitchell and Aronson demonstrate how government at all levels has intentionally avoided reporting death in custody data Mitchell and Aronson outline a practical achievable system for accurately recording and investigating these deaths They argue for a straightforward public health solution adding a simple checkbox to the US Standard Death Certificate that would create an objective way of recording whether a death occurred in custody They also propose the development of national standards for investigating deaths in custody and the creation of independent regional and federal custodial death review panels These tangible solutions would allow us to see the full scope of the problem and give us the chance to truly address it **Synthetic**
