present our thinking and research in international real estate with particular emphasis on Asia The region s vast potential for real estate is itself a large incentive for international real estate research and education that has inspired me to document the significant work I have done over the years Black over White background ix I wish all readers a pleasurable reading of this book and I thank you sincerely for your support without which the publication of this book would be made all the more difficult Dr HO Kim Hin David Honorary Professor University of Hertfordshire UK International Real Estate Public Policy March 2021 **The Populist Aesthetic of the Rassemblement National and la France Insoumise** Morgane Belhadi, 2025-05-31 This book analyses visual expressions of populism in France to provide new insights into contemporary political communication It focuses on images produced by the Rassemblement National and la France insoumise parties on the far right and far left respectively as part of their political campaigns The author explores issues such as representation symbolism the power of narratives dystopian imagery and counterculture throughout posters and social media It highlights the strategies of these parties particularly in relation to the use of the themes of resistance revolution and patriotism The book is a valuable resource for academics students and practitioners who seek to better understand populism in France and beyond *Parish Registers* Cumberland and Westmorland Antiquarian and Archaeological Society.
