Bennett Humphrey, H. Schraffordt Koops, W.M. Molenaar, A. Postma, 2012-12-06

**Osteosarcoma in Adolescents and Young Adults** New Developments and Controversies is the fifth volume in the series **Cancer Treatment and Research** devoted to pediatric oncology Like its immediate predecessor **Hodgkin's Disease in Children Controversies and Current Practice** this volume also deals with the current state of affairs where do researchers differ in opinions or firmly held beliefs What does the future hold for research or for the patients who have benefited from research and are now cured etc The first part deals with preclinical and clinical issues that relate to the disease and the second part deals with the results of recent trials and in some cases ongoing trials It could be argued that section B Pharmacology Section D Radiotherapy and Section E Surgery of part

one belong to part two however in these sections we have tried to focus on one discipline and in part two we have tried to focus on the results of multidisciplinary trials A third part includes a few critiques and editorial comments This volume was prepared and planned for both basic and clinical oncologists It is hoped that the basic scientists will gain some insight into the problems of their clinical colleagues and that the clinicians will be willing to read to the more basic articles It is not a text for students or for that matter physicians who want all things to be laid out in black and white But it is a text for those students who want to know how vibrant this field of research is and are willing to stand in awe of how much research needs to be done

Parlement. Chambre des représentants, 1951 Judicial Activism in Bangladesh Ridwanul Hoque, 2011-01-18 This book critically examines the evolving global trend of judicial activism with particular reference to Bangladesh It constructs judicial activism as a golden mean adjudicative technology standing between excessive judicial assertion and unacceptable judicial passivity that may leave injustices un redressed It argues that judicial balancing between over activism and meek administration of justice should essentially be predicated upon domestic

conditions and the needs and fundamental public values of the judges respective society Providing cross jurisdictional empirical evidence the study demonstrates that judicial activism steered towards improving justice and grounded in one s societal specificities can be exercised in a morally and legally legitimate form and without rupturing the balance of powers among the state organs This study has sought to displace the myth of judicial activism as constitutional transgression by unelected judges arguing that judicial activism is quite different from excessivism It is argued and shown that a particular judge or judiciary turns out to be activist when other public functionaries avoid or breach their constitutional responsibilities and thus generate injustice and inequality The study treats judicial activism as the conscientious exposition of constitutional norms and enforcement of public duties of those in positions of power The study assesses whether Bangladeshi judges have been striking the correct balance between over activism and injudicious passivity Broadly the present book reveals judicial under activism in Bangladesh and offers insights into causes for this It is argued that the existing milieu of socio political injustices and over balance of constitutional powers in Bangladesh calls for increased judicial intervention and guidance of course in a balanced and pragmatic manner which is critical for good governance and social justice Writing about judicial activism easily gets shackled by fussy and pedestrian debates about what judges may or may not do as unelected agents of governance The book goes much beyond such reductionist pedestrianisation of law for it courageously lifts the debate into the skies of global legal realism The analysis perceptively addresses bottlenecks of justice identifying shackles and mental blocks in our own minds against activising concerns for justice for the common citizen Prof Werner Menski Foreword

Monte Carlo Methods In Ab Initio Quantum Chemistry Brian L Hammond, William A Lester, P J Reynolds, 1994-03-29 This book presents the basic theory and application of the Monte Carlo method to the electronic structure of atoms and molecules It assumes no previous knowledge of the subject only a knowledge of molecular quantum mechanics at the first year graduate level A working knowledge of traditional ab initio quantum chemistry is helpful but not essential Some distinguishing features of this book are Advances in Turbulence XII Bruno Eckhardt, 2010-03-17 This volume comprises the communications presented at the EUROMECH European Turbulence Conference ETC12 held in Marburg in September 2009 The topics covered by the meeting include Acoustics of turbulent flows Atmospheric turbulence Control of turbulent flows Geophysical and astrophysical turbulence Instability and transition Intermittency and scaling Large eddy simulation and related techniques Lagrangian aspects MHD turbulence Reacting and compressible turbulence Transport and mixing Turbulence in multiphase and non Newtonian flows Vortex dynamics and structure formation Wall bounded flows
